

Florida Utilities Coordinating Committee Vendor Table Form

Thank you for your interest in exhibiting! The Florida Utilities Coordinating Committee meetings are currently held in Spring, Summer and Fall and attended by 100-115 registrants each meeting. Attendees represent local and state governmental agencies, water authorities, contractors and a variety of utility companies such as telephone, power, gas and cable.

Vendor tables are typically set up in the preconference area of the hotel near the meeting registration desk or in the rear of the General Session room. Vendors are provided with one 6 foot skirted table. If an additional table is needed or if electricity is required, please notify registration@fucc.org to make arrangements.
