

## Emergency Text Messages from LPE

LPE Families:

The ProCare system offers an option for you to receive a direct text message from LPE in the event of an emergency, in order to set that up in our system we would need to know your cell phone carrier (AT&T, TMobile, etc). If you would like to opt into this please fill out the information below and return it with the rest of your welcome packet.

Thank you,

Milli
