A Service Disabled Veteran Owned Small Business

## Company/Service Information

**JDR Unlimited, LLC** started in late 2012 as a small business after it's founder, Jeff Salter, retired after 26 years in the United States Air Force where he served as a leader of numerous program management, logistics sustainment, and Research and Development (R&D) offices. While impressed with the contractors who worked for him, he became concerned about the increasing costs associated increased operational tempos and manpower reductions. In the past 8 years, the federal budget has suffered difficulties while the average age of weapon systems has increased, manpower has decreased, and performance expectations have increased.

**JDR Unlimited** firmly believes in providing exceptional services to our nation and communities, in a cost effective manner while also growing our employees and helping those who need help. Finally, we strongly advocate preparing the way for our future energy independence through high efficient energy "Net Zero" designs.

**JDR Unlimited** is committed to providing outstanding, cost effective services to the benefit of our Nation, our communities, and our employees.
