Belton, Missouri 64012

(816) 331-7979

Hosted by - John & Robyn Forkner

John - cell phone (913) 515-0054

Snead's - April 12, 2014

The Prez Says,

Hello everyone. Sunday, June 3, was a great day to be driving a Hudson. Jamie and Julie and Ellen picked a nice day, sunny and warm with little wind. That made for a good driving day. I drove my faithful 1950, John Forkner drove his 54' Hornet and Jamie and Julie brought their 1938. The 38' is still in the working-it-out-and- adjusting stage after a drive train rebuild. It was good to see it out again.

Ellen Durand was three days from her third birthday so we had a birthday party for her and enjoyed Pizza and pop and dessert cookie and brownie. Thanks to Jamie and Julie and Ellen for hosting. John gave us an account of what happened at the regional meet in Scottsbluff, Nebraska. Those attending our meeting were John Forkner, Wayne and Lynne Holz, Bob and Donna Sullivant, Jamie and Julie and Ellen Durand and myself. We had some visitors, the Gillette's, they have a 54' Hudson. No business was conducted; a short conversation about the 2020 regional then we went to kick tires.

In the last newsletter I told about running the battery charger into the radiator. Well the radiator shop, B&D in McLouth, re-cored the radiator and it looks good. That OOPs cost \$437.00 - my carelessness cost a lot of money. However, the radiator was old and needed re-cored so that should keep me from a problem later. Years ago there were a couple radiator shops in every town, now it's hard to find one. B&D is out in the country southwest of McLouth (you would need to know where it is or use GPS to find the place.) It's a one-man shop and he seems to know his trade, and unlike D&G radiator in Topeka he is nice to work with, just an easy going farmer kinda guy. So I would recommend them. Not a high speed push-it-through but he gets it done. It's nice to find pleasant people. While I had the radiator out of the Jet I was thinking of air-conditioning in the Jet. I went to the junk part pile and was thinking about making one fit. There is no place to put the condenser in front of the radiator. I know it has been done, but I think not by me now.

See you July 28 at Perkins, bring a Hudson if you can; Prez. Jim Durand
