**Free Education** is provided by Government schools. Non-Government education is divisive, elitist, part of wealth-Apartheid. Government that funds Non-Government education is stealing from public education. This type of Government needs replacing & prosecuting: **MS/R6**

1GOD wants Humankind to get an education, share what we learned & repeat this process. 1st **Learn** & then **Teach**, learn more, teach more, ... On Judgment Day 1GOD wants to hear from a person how much they have learned & how they applied this knowledge !

Home-education interferes with Assessment & goals of Public-education. Public schooling is mandatory. Parents are held accountable for truancy.

Universities a Elitist short cut to Top positions. Lack of Work-experience makes them unsuitable for top jobs. High paid work must be earned via Apprenticeship, Work-experience, Further-studies & Seniority.

## H O M E W O R K

Homework is the most dishonest & useless form of learning or teaching. A Scholar is under pressure from friends, ignorance, parents, time-line & distractions. Most homework is not done by the scholar who is being assessed & graded. *Homework because of its dishonest nature is useless & misleading for assessment.*

A Scholar is under pressure from friends to do the homework later, rush it or don't do it at all. *This results in mediocre work, copying (cheating), or no work.*

A Scholar's ignorance, not being able to understand or complete the homework, puts enormous pressure on him/her. *Which results in loss of interest in education & anti-social behavior.*

A Scholar is under enormous pressure from parents (*who support elitist education*) to get high marks. This leads to deceiving the parents (*copying*) or getting them to get involved. Once parents get involved they seem to take over.

Result, the scholar is not learning & the parents make their child a cheat. *The scholar learns that cheating is OK & the elitist way to success.*

Scholar often study while distractions are in use, music, video, phone... All these activities stop comprehending the course-material. *Wasting a Scholar time spend in the education system.*

Homework usually comes with a dateline. Too many different subjects homework & too time consuming put undue pressure to finish the work by the completion date. The time-line pressure leads to shoddy work, unfinished work, lack of comprehension, useless education, depression, moodiness & stress. *Plus the above pressures.*

Many Parents respond to homework with dread. How do I ensure homework is done? Can I help? Should I help? A lot of parents have a lack of control over their children. Homework is a nightmare for these parents. Ignorant parents will feel guilty & embarrassed that they cannot help their children. Parents who ponder whether to help with homework often become upset over this issue. Homework often leads to family arguments & disruption of family-life. Scholar feels inadequate letting down family.

Homework is cruel, unhealthy & robs a child/youth of its time to be curious, play & socialize with others. Disrupting social interaction with same age-group. Being teased, bullied or excluded.

Educators have moral issues when marking. They suspect that the scholar did not do the assignment. Because of this uncertainty any marks given are useless. **Homework as tool of assessment of comprehension is misleading.** Therefore Homework is a waste of time & resources. Say **NO** to **HOMEWORK** !

Learning & teaching can be exhausting, like other workers scholars & educators need to switch off. Homework stops the needed switch off resulting in moodiness, stress & other health problems. Educators that support homework need to be expelled from the Education-system.

Parents wanting homework are bad parents & need to be re-educated. Parents who fail re-education need to be relieved of their children.

### **Custodian Guardian education:**

Class-work is split evenly between studying & doing assignments. E. g. Class-duration is 90 minutes. 45 minutes studying subject/45 minutes completing assignments.

During Assignment work, when needed teacher helps by giving examples. Quick scholars help teacher with slower scholars. Unfinished assignments in class-time are completed at school in recreation-time.

Scholars that consistently have unfinished assignments are transferred to Slow-Scholar class. 'Slow-Scholar' class is taught by teacher + parent-aids. No scholar can progress to next subject-module without having 70 % pass for current subject-module.

70 % pass means you understand & comprehend, can apply & teach others. Anything less is a fail ! Fail means repeat (s)subject-module until 70% pass is achieve.

Assessment. Scholar: Pass or Fail. Pass-rate is 70% comprehension.  
Educator: Student Pass-rate of at least 90%.  
Principal: School pupil comprehension-rate of 80%.

**1GOD** is waiting to here from YOU !
