SIDE 1

FLORA

The Queen is right to be afraid, you know. All the magic in the world won't keep little Aurora safe.

MERRYWEATHER

But what else can we do?

FAUNA

Hmm... What about no magic?

MERRYWEATHER

What?!?

FAUNA

Maleficent knows it's our job to protect Aurora with our magic, and that's what she'll be looking for. So, why don't we take the Princess to the old woodcutter's cottage in the forest and raise her using no magic at all?

MERRYWEATHER

But a princess in a cottage? Princesses are supposed to live in castles.

FAUNA

She won't be a princess! She'll be Briar Rose, our little peasant girl!

FLORA

(getting the idea)

Then on her sixteenth birthday, we'll tell her the truth and return her to the palace, safe and sound.

MERRYWEATHER

Briar Rose? Living in the woods? And no magic? For sixteen years?

FAUNA

(calming MERRYWEATHER down)

Come on, it will be fun!
