

Good morning!

THANKS for the discussion/replies for the clip the past two days. Got some AWESOME input also!

I also got this back when talking to Jeff Levan about using clips for discussions.....

'We definitely want to generate this discussion. And the format allows those who might otherwise not speak up at meetings to have "their call" validated. Or if not, why? By and large, IMO newer officials are typically hesitant to speak up in a meeting and would otherwise stay silent. Hopefully they have a mentor they talk to.

There are no bad calls in a chapter meeting, only good discussions. I make as many meetings as I can just for that... to hear the plays and discussion. Much rather make a wrong call in that forum than on the floor. And if I do or otherwise don't fully understand then I have my assigned homework.'

THAT is a fantastic philosophy for discussions and meetings! I hope others find meetings the same as Jeff does! Thanks Jeff!

So.....late game play that COULD send the game to OT.....a shot is taken and most likely a foul. Are you calling it? Does it matter if it is outside your primary and you SEE it? Does it matter that it is a JH girls game? JV boys? State final? Your daughter's game and you are in the stands watching? Take a look at [this clip](#) and think about being in any of the three officials positions on this game.....being one of us watching the clip.....more tomorrow on it! Looking forward to 'discussion' on this one also!

Hope you have a great game tonight! Stay well, make sure to use hand sanitizer during the game (have a bottle on the scorer's table) and safe travels!

Tim
