

**GLOBAL PRODUCT
DEVELOPMENT SOLUTIONS**

Mission Statement

- To provide "outsourced" pricing, but with the quality our customers need and expect.
- We take the headache out of getting globally competitive priced quality products for your company.

A Little History

- Started in 2014
- GPDS leadership is comprised of engineers with extensive design and manufacturing engineering experience from the automotive industry.

Where is GPDS?

US Offices

- Milwaukee WI, 53202

Viet Nam Offices

- Thu Dau Mot City , Binh Duong Province , Viet Nam

Viet Nam Production Facilities

- Ho Chi Minh City, Viet Nam
- Binh Duong Province, Viet Nam
- Dong Nai Province, Viet Nam

China Prototype Facilities

- Zhongshan, Guangdong China
- Dongguan, Guangdong, China
- Shenzhen, Guangdong, China

Additional Locations Depending on Customer Needs

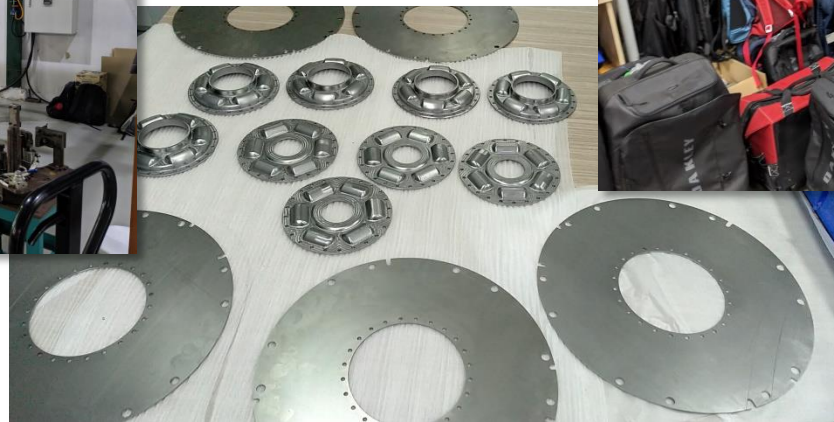

Core Strategy

- We partner with numerous companies throughout Asia to give us access to an enormous manufacturing marketplace. The GPDS team provides direct oversight and management of the development and production with these manufacturing partners.
- The GPDS engineering team is onsite and working directly with the supplier's engineering and production team to develop and execute a robust process that will produce parts per the customer's specifications. This close relationship is maintained from cradle to grave of the product life cycle. The result is that we can offer a wide variety of products at very competitive prices and with confidence in our quality.
- We ship direct to the customer's dock and deal with any logistics and warehousing details as needed.

Offerings

- Production Parts
- Prototype Parts
- Tooling
- Supplier Consulting Services

Manufacturing

GPDS can provide a diverse variety products from our vertically integrated global partnerships, providing a high quality product at a competitive price. A partial list of our capabilities is listed below. Please contact us if you have more specific needs.

Fabrications

- Steel Welding (MIG, TIG, Manual, Robotic)
- Aluminum Welding (MIG, TIG, Manual)
- Adhesive Bonding
- Finished Product Assembly

Component Manufacturing

- Forging (Steel, Aluminum)
- Wax Pattern Investment Casting (Steel, Stainless Steel, Aluminum)
- Stampings (Steel, Aluminum)
- Extrusion (Aluminum, Plastic)
- Machining (Milling, Boring, Turning, Broaching, Reaming, Grinding)
- Die Casting (Aluminum Alloys)
- Injection Molding (ABS, Polyethylene, Polypropylene, Nylon, Rubber, etc..)
- Hardware (cold forming, springs)
- CNC tube bending

Coatings/Painting/Heat Treating

- E-Coat, Powder Coat Paint, Liquid Paint
- Plating (Zinc, Chrome, Chrome Plastic)
- Heat treating to suit print specifications

Assemblies

Textiles

- Outdoor Bags
- Nylon Outdoor Products

Prototypes

Most quotes can be prepared within 48 hours, and can typically be expedited within 24 hours when needed.

Most orders deliver within two weeks. Ten day turn-around on machine billet orders is typical.

- CNC billet (Steel, Aluminum, Iron)
- Wax Pattern Investment Casting (Steel, Stainless Steel, Aluminum, Iron)
- Soft Tooled Forging (Steel, Aluminum)
- Fabrications (Welding, Assembly, Adhesive)
- Laser Cutting (sheet metal, 3D profile, tube, etc..)
- Plastic Vacuum Castings/Molding
- Sheet Metal Fabrications / Assemblies
- SLA (Stereolithography)
- SLS (Selective Laser Sintering)
- Extrusion
- Die Casting
- Plastic Injection Molding
- Finishing (sand blasting, painting, etc..)
- Heat Treatment
- Carbon Fiber
- Fiber Glass
- Silicon Mold Casting
- Textiles (Nylon Outdoor Bags)

Tooling

GPDS can provide a diverse variety tools from our vertically integrated global partnerships, providing a high quality tool at a competitive price. A partial list of our capabilities is listed below. Please contact us if you have more specific needs.

Stamping Tooling

- Single Stamping
- Transfer Stamping
- Progressive Stamping Tooling
- Deep Draw Dies

Casting Tooling

- Die Casting Tooling
- Wax Pattern Tooling (Investment Casting)

Gaging/Fixturing

- Go-No-Go gages
- Gages based on GD&T
- Profile check gages
- Component and assembly check gages
- Weld Fixturing (MIG/Spot)

Prototype Tooling

- Wax Pattern Investment Casting (Steel, Stainless Steel, Aluminum)
- Soft Tooling Forging (Steel, Aluminum)
- Fabrications (Welding, Assembly, Adhesive)

Consulting Services

- Need help finding a supplier in Asia?
- We have an extensive database of suppliers in China, Taiwan, Vietnam, Thailand, and Indonesia
- We can help match our customers needs with the right supplier for any manufacturing commodity
