

Media Package Rider

We are happy to offer several options to ensure you have a great event. Please read the descriptions below and choose what you need:

Total Technical Assistance — Our Technical Assistant helps with everything you require and remains onsite throughout your event. This includes, Lighting, Video and Audio. Please note this is NOT a DJ Service, you must supply the playlist. For videos we need a USB thumb drive or you may bring your laptop to connect to our system. The cost is \$50 an hour with a minimum charge of \$150.

Audio only — Customer brings their own device (laptop, phone or iPod/iPad for music (iTunes, Spotify, Pandora, etc.). This uses an abbreviated sound system that you are able to run without a technician on site. The cost is \$50 for the entire event.

Video — If you want to play video using your computer, attached to our projector, add \$50 to option #2. Available connection to the projector include: HDMI, mini DisplayPort, VGA, & DVI.
