

Our Story

When Bryce was 4 months old he was diagnosed with a rare congenital disorder called Optic Nerve Hypoplasia (ONH) that greatly limits his vision.

His family & friends started the foundation to help provide support for children living with visual impairments.

Proceeds will support kids with visual impairments by offering access to:

- ❖ Exploration Learning Center
- ❖ Summer Camps
- ❖ Glasses & Sunglasses
- ❖ Therapy Equipment
- ❖ Braille Learning Tools
- ❖ Mobility, Braille & Art Classes
- ❖ College Scholarships

How you can help?

- ☀ Donate
- ☀ Volunteer
- ☀ Share the message
