

Pumps & Fuel Systems

A mid-level to advanced course designed for anyone working on oil-fired equipment and others looking for more knowledge on residential oilburner tanks, fuel units, fuel lines, valves and accessories. A no-nonsense course on oil-burner fuel systems and components. The course focuses on oil pumps, tanks, piping, valves, oil de-aerators, and fuel system boosters on all types of residential and commercial oilburners and how to diagnose and correct the problems. Class will be taught by Bruce Marshall formerly of Suntec and Emerson-Swan.

Includes Suntec & Webster Pump Manuals and our textbook, 'Fuel Systems Handbook' with lunch.

Please copy and make out one form per student. FULL TUITION of \$345.00 is required with registration. Tuition includes a \$345.00 education fee, a \$135.00 books and supplies fee and a \$150.00 non-refundable NO-SHOW registration fee.

In depth training on Beckett, Danfoss, Riello, Suntec and Webster pumps.
