Birds & Wildlife of Sri Lanka, Dr. Nirmala Khandan

Member Mesilla Valley Audubon Society & Dona Ana Photography Club

Dr. Khandan is a Professor at NMSU and an ardent bird/wildlife/nature photographer. He will present his images of birds and wildlife from his home country - Sri Lanka. The tropical island nation of Sri Lanka is home to 233 resident bird species; 23 of them endemic. The first part of his presentation will cover challenges in shooting birds and wildlife in tropical forests and some solutions that have worked for him; he will share his approach to bird photography and shooting techniques for producing clean and compelling bird portraits. In the second part, he will share several of his images with behind-the-scene details.

Dr. Khandan has been organizing small group nature/wildlife expeditions to Sri Lanka on a shared-cost basis that several of the Dona Ana Photography Club members have participated in. He is planning another 8-day expedition in August 2017. These all-inclusive expeditions include land transfers, private safaris to four National parks, and a trek in a tropical forest which is a UNESCO World Heritage Site, guided by local birding/wildlife enthusiasts. If any of you are interested in joining this expedition, please contact Dr. Khandan by email at nkhandan@nmsu.edu.

Monday, May 15, 2017 7:00pm

Dr. Jodie Jawor, Avian Researcher

Pyrrhuloxia: New research into the physiology and behavior of the Desert Cardinal

Dr. Jawor is an affiliate researcher at New Mexico State University and is a Program Director at the National Science Foundation. As a new transplant to the American Southwest, Dr. Jawor became intrigued by our native species and in 2016 began a new research program focusing on the Pyrrhuloxia, or Desert Cardinal.

Dr. Jawor hopes to compare her findings with Pyrrhuloxia to her long-time study subject the Northern Cardinal. Pyrrhuloxia and Northern Cardinals are close relatives, and the similarities and differences between these two species can tell us quite a bit about how animals adapt to unique environments like the desert and just what goes into the development of new species. Dr. Jawor will talk about her new research project outlining what she has found to date and how the Pyrrhuloxia compares to its closest relative.

Let's "Fly" into Action! Audubon's Birdathon 2017!

Birdathon counters are already "in training" in preparation for Birdathon 2017.
It all takes place May 6 & 7.

What is Birdathon, you might ask?

One thing is for sure, it's not your average bird count or fund raiser! Birdathon is unusual and different: a wild weekend of birding and our organization's most important source of income for conservation and education programs.

We hope you can join us for a full, rewarding weekend of birding by being a **sponsor** and possibly even a counter (if you want to become part of the "Birdathon Flock" as a counter, please contact Jane Fowler at 598-2448 or Eddie Chew at 587-9589).

Birdathon 2017 will benefit the following programs and projects:

CHAPTER OPERATIONS

Your support allows our chapter to work alongside other organizations to support conservation & education.

RIO BOSQUE WETLANDS PARK

Each year, this site along the Rio Grande becomes more valuable as habitat for birds and other wildlife.

AUDUBON TEXAS

Our support helps keep National Audubon's state office an effective voice for birds, other wildlife and their habitats in Texas.

SECOND CHANCE WILDLIFE RESCUE, JOSIE KARAM

Our support helps injured or young birds to be rehabilitated and released back into the wild.

EL PASO ZOO

The zoo, through its raptor rehab program, provides the only facility in our area that cares for injured raptors.

How Birdathon Works

On the weekend of **May 6 & 7**, our dedicated Birdathon counters will be busy scouring the countryside, trying to find as many bird species as possible, in a single 24-hour blitz. These hardy, energized and intrepid individuals will start early, stay out late, visit varied wildlife habitats and give their eyes, ears and bird knowledge a full workout. Why do they push themselves so hard? For the pleasure of a day in the field, for a test of their birding skills and **most importantly, for a better West Texas environment.**

Each counter will be backed by sponsors who pledge either a given amount for each species seen or a fixed total amount. Most counters will identify 50 to 100 species. A pledge of, say \$0.50 per species for 60 species would result in a contribution of \$30. Over 90% of Birdathon income goes to the programs and projects; less than 10% to fundraising (printing, paper and postage).

Looking for someone to sponsor for Birdathon? This year's outstanding counters are a dedicated bunch, most of whom are experienced Birdathoners. If you supported one of these people last year, please give them a call and sponsor them again. If you don't know any of the counters personally and don't know whom to choose, please give Jane (598-2448) or Eddie (587-9589) a call.

At press time, our confirmed counters for this year's Birdathon include:

Eddie Chew	John Kiseda	Mark Perkins
Scott Cutler	Jim Paton	Susan Schneider
John Groves	John Sproul	Richard Hermosillo
Laura Ditlevson	Kathy Whelen	Joe Cancellare

Please pick one or more individuals and give them your support!

Whether it's \$0.25 per species or \$1.00 per species or any given amount, we hope you will consider a pledge to Birdathon 2017. Please pick one or more counters to sponsor and return the enclosed coupon today.

Your generosity and support help make Audubon Birdathon a success.

El Paso/Trans-Pecos Audubon Society

BIRDATHON 2017

Thank you for your generous Birdathon pledge!

YES! I'll sponsor _____
for \$ _____ per species for each species she/he finds on
Birdathon 2017 or for a flat amount of \$ _____.

I will add a bonus of \$ _____ if my Birdathon counter sees a

El Paso, TX 79912**

AT FEATHER LAKE

Feather Lake, of course, has experienced persistently dry conditions for over 6 years now. The driest of the dry periods is in February and March. This year, the basin was completely dry throughout February for the 7th consecutive year and completely dry throughout March for the 6th year in the last 7.

Our next workday at Feather Lake will be **Sat., April 8**, starting at **8 a.m.** As part of clearing the trail on the inner berm within the basin last year, we cut up a lot of windblown dead trees that had toppled across the trail. We'll haul out the resulting logs and use them to upgrade the border on the trail along the east side of the basin. Feather Lake is located at 9500 North Loop at Bordeaux in El Paso, 0.3 miles west of Americas Ave.

El Paso/Trans-Pecos Audubon Society

Audubon at

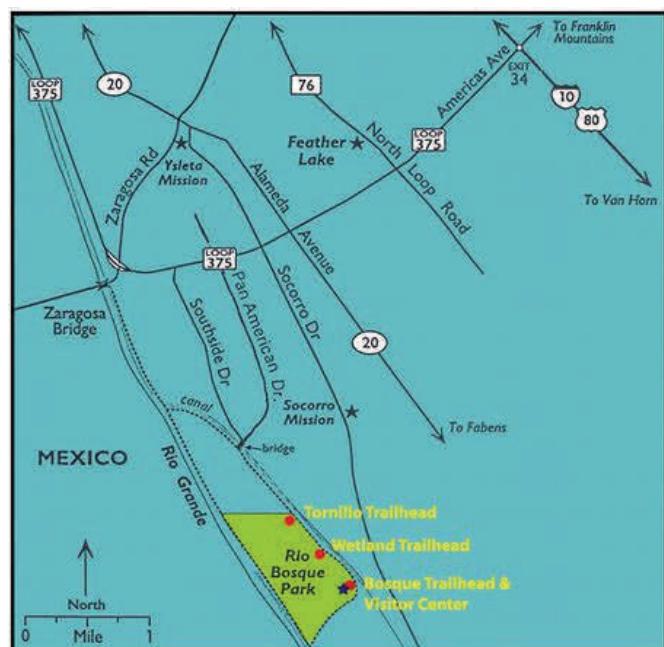

The Friends of the Rio Bosque will sponsor **Bosque in Bloom**, a celebration of the dramatic changes now occurring at the park thanks to the presence of water during the growing season, on **Saturday, May 20** from **9 a.m. to noon**. Tours, exhibits, talks, kids' activities and lots of water will highlight the morning. Visit www.riobosque.org for more on this event and for up-to-date information on the park's birds and water conditions. Also on the calendar at Rio Bosque in April and May:

4 p.m., Sat., April 8 (Introductory tour)
8 a.m., Sun., April 30 (Birding tour)

7 a.m., Sat., May 13 (Birding tour)
8 a.m., Sun., May 21 (Introductory tour)

The meeting place for these tours is a bridge crossing the Riverside Canal. To get there from I-10, take Americas Ave. (Loop 375) to Pan American Drive, turn left onto Pan American and travel 1.5 miles. Information: 747-8663.
