

Why You Should Vote **NO** on Measure L The 1% Public Safety Sales Tax Increase in Madera County It's **NOT** lack of money – it's **Misguided Priorities!**

The **FIRST RESPONSIBILITY** of the County Board of Supervisors (BOS) is to protect its citizens and provide fire, and emergency services by fully funding fire services and the Sheriff's department from county tax revenues. **Our Madera County Board of Supervisors have done just the opposite.**

- The Madera county budget for the 2016-2017 Fiscal year is \$266 Million Dollars.
- **Only 6.3 Million is spent for Fire Protection and Emergency Services (2.36% of the County Budget)**
 - By comparison the county spends 29.2 % (77.6 Million) on Welfare
- Between December 8, 2015 and January 16, 2016 the BOS voted to spend \$4.6 Million to increase the salaries and benefits for Madera county workers – all which took effect by July 2016.
- For the 2016/2017 budget year millions more have been approved for salary increases and benefits
- The BOS is spending nearly \$200K for a consultant to inform residents about this 1% sales tax increase.
- The BOS recently approved another \$311K to help kick start a 956-acre OHV Park off HWY41 west of O'Neal's which local residents oppose. Now a proposal to lease this property for \$10K/month is being proposed. If approved additional funds are required and open to county to liability claims
- Currently the BOS is planning on spending more than \$500K for a Madera County Monument sign off HWY41
- In 2016 after public outcry, a 25% increase (\$97K annually) in the BOS salary was stopped!
- It will cost the county more than \$100K just to put this Measure L on a special March 7, 2017 ballot!
- These increased expenditures total over 7 Million dollars. All discretionary money!
- **The proposed 1% Sales Tax increase is estimated to raise between 5-8 Million/yr. over the next 20 years, approximately what the County has already spent annually on increasing salaries and nonessential projects.**

Addition Taxes and Fees for Madera Property Owners and Citizens

- Madera property owners are paying hundreds of dollars/year on property taxes for School bonds and special assessments passed in previous years.
- Measure C, the Community College Classroom Repair and Job Training Improvements bond, passed on June 7, 2016 will increase property taxes starting in 2017. Wait till that bond hits your wallet!
- Increasing fire personnel is no guarantee of reduced ISO ratings and lower property insurance.
- In December/2016 the BOS approved a 12% increase in trash disposal fees and an 80% increase in landfill sites! The county will reap a windfall of over \$600K/year that will go to the general fund from this increase.
- Increasing fire personnel is no guarantee of reduced ISO ratings and lower property insurance.

If raising workers' salaries and benefits is so important in Madera County, why wasn't THIS put on the March 7, 2017 special election ballot instead of a fire and safety tax? The answer is obvious - If would fail, but a safety tax – well that plays better on people's emotions. Never let a Crisis go to waste!

The Solution:

It is not fiscally prudent to raise the sales tax of Madera County to pay for basic protective services. The county needs to follow the example of the private sector and economize and live within its budget. Public safety should be the number one priority of this county, not salary increases and non essential and frivolous projects..

Without fire and emergency protection nothing else matters! The county needs to "fix" its lack of priorities, not pick the pockets of tax payers!

Vote NO ON MEASURE L
