

Education

Texas Democrats know that **every child deserves the best public education** regardless of where they come from:

- **deliver on debt-free college and student loan reform**, so that every hardworking Texan can achieve their God-given potential.
- **fix Texas' broken school finance system**, so our children receive a quality education.
- **invest** in our teachers, prepare our children for the economy of the future, and protect our schools from private voucher gimmicks.
