3133 S. 7th Abilene, Texas 79605 325-677-5316 davidmayjrdds@yahoo.com

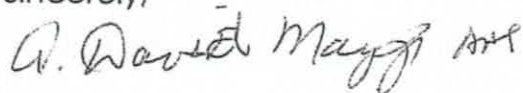

I would like to take this opportunity to introduce you to Kappel Dental Arts. Doug Kappel has a high quality crown and bridge lab here in Abilene, Texas. Doug has been a lab technician for 35 years and has had a lab here in Abilene since 1997.

If you are not happy with your current lab; I suggest you give Kappel Dental Arts a try. Doug and his staff will listen to you and follow your Rx directions to the letter. They have all the latest materials and equipment available, allowing you to choose the best possible result for your patients. Their in lab time to completion is short compared to many labs and all the work is done in-house, never being sent off-shore. You know the materials are what you prescribe.

I have found Doug to always be available to answer questions and willing to discuss difficult cases. I have been extremely satisfied with their work and I think you would be also.

Please feel free to call me if you would like a personal reference.

Sincerely,

A handwritten signature in cursive script that reads "A. David May, Jr." followed by a small flourish.

A. David May, Jr., D.D.S.
