QUALITY TARGET ARROWS

No. 360 PORT ORFORD CEDAR TARGET ARROWS

This represents a fine quality inexpensive yet durable practice arrow. The same high quality wood is used in this arrow as in the more expensive shafts, the difference being mainly in the matching. Machine fletched, colored cock feather, parallel steel points, 5/16" shafts, replaceable plastic nocks, neatly painted and crested. Lengths, 24", 25", 26", 27", and 28".

No. 360 Port Orford Cedar Target Arrows.....\$5.25 Doz.

No. 355 MATCHED PORT ORFORD CEDAR TARGET ARROWS

3 1/2" Spiral Fletching
Made of the finest 5/16" Port Orford Cedar, matched within 10 grains in weight and identically in spine. Parallel steel points, 5/16" replaceable plastic nock. Machine fletched with spiral ground base feathers, colored cock feather. Neatly painted and beautifully crested. Lengths 24", 25", 26", 27", and 28".

No. 355 Matched Port Orford Cedar Target Arrows.....\$7.95 Doz.

No. 325 FLEETGLASS TARGET ARROWS

FLEETGLASS—the improved fibreglass arrow. Our tubular fibreglass shafts were created especially for Fleetwood after months of painstaking experimenting by one of the foremost manufacturers of other fibreglass products. The finest quality fibreglass arrow on the market today. Matched in spine and weight. Insert points (not slip over), plastic nocks, spiral machine fletched, neatly painted and crested. State bow weight and drawing length desired.

No. 325 Fleetglass Target Arrows.....\$23.50 Doz.

"6 PACK" ARROW DISPLAY CASE

Fleetwood's #360 Arrows are now available in either one dozen boxes or the new six dozen attractive Counter Display Rack. Same specifications as our #360 Arrow shown above. The "6 Pack" may be made up of all one size or any number of our standard sizes—24", 25", 26", 27" or 28".

No. 360—"6 Pack" (72 Arrows).....\$31.50 per pack, retail

No. O—"6 Pack"

An inexpensive Beginner Arrow. Made of Port Orford cedar. One color band below fletching. Steel target point, plastic nock. Sold only in 6 pack—24", 26" and 28" lengths.

No. O—6 Pack (72 Arrows).....\$21.60 per pack, retail

Note—Be Sure to State Your Arrow Length

Can be mailed by parcel post.

#91 \$4-

HUNTING ARROWS

No. 370 DEERSLAYER HUNTING ARROWS

Made of matched 11/32" Port Orford cedar shafts, fitted with Fleetwood No. 855, 125 grain Deerslayer broadhead. Matched in spine for heavy hunting bows and within 10 grains in weight. Fletched with ground base, long heavy hunting feathers, accurately spiraled. Replaceable Index Speed nocks, painted full length of shaft and neatly crested. Will conform to game laws in all states. All lengths.

No. 370 Deerslayer Hunting Arrows..... **\$13.40 Doz.**

No. 375 KING OF THE FOREST HUNTING ARROWS

Made to the same exacting specification as our No. 370 except fitted with Fleetwood four (4) blade King of the Forest Broadhead, No. 850, 125 grain. This makes a well matched, rugged big game arrow which effects the deadliest killing power ever designed into a hunting arrow. A Four blade head has many advantages over the two blade in that it cuts a cross which prevents any binding of the shaft allowing maximum penetration. It also leaves an open wound so the blood may flow more freely, leaving a blood trail. All lengths.

No. 375 King of the Forest Hunting Arrows..... **\$14.60 Doz.**

No. 315 24SRT-X Aluminum Hunting Arrows fitted with Fleetwood Deerslayer or King of the Forest Broadheads..... **\$32.50 Doz.**

FLEETGLASS HUNTING ARROWS

FLEETGLASS—the improved fibreglass arrow. Our tubular fibreglass shafts were created especially for Fleetwood after months of painstaking experimenting by one of the foremost manufacturers of other fibreglass products. The shafts are made into arrows by Fleetwood Craftsmen with over 26 years of Archery know-how.

Each arrow in your dozen is identical in spine and within 5 grains or less in weight. The spine will not vary at any point on the circumference of the shaft—the first Fibreglass Arrow to produce this feature. Shafts are made straight and stay straight. It is foolhardy to say any arrow is indestructible but fibreglass will withstand much more punishment than any other arrow material. Fleetglass Arrows come in a large variety of wall thickness and diameters and we can properly fit any bow weights from 20 lb. to 80 lb.

No. 340 FLEETGLASS DEERSLAYER HUNTING ARROWS

Matched in spine and weight. Fitted with Fleetwood No. 855 125 grain Deerslayer Broadheads. Fletched with extra heavy ground base spiral fletching, speed nocks, neatly painted and crested. State bow weight and drawing length desired.

No. 340 Fleetglass Deerslayer Hunting Arrows..... **\$27.50 Doz.**

No. 345 FLEETGLASS KING OF THE FOREST HUNTING ARROWS

Same specifications as No. 340 except fitted with Fleetwood King of the Forest No. 850 125 grain four blade broadhead. A four blade head broadhead has many advantages; it will not plane in flight, will not bind, allows maximum penetration leaving an open wound so an animal will bleed more freely and leave a blood trail. State bow weight and drawing length.

No. 345 Fleetglass King of the Forest Hunting Arrows..... **\$28.50 Doz.**

Note—Be Sure to State Your Arrow Length

FIELD ARROWS

No. 387 MATCHED FIELD ARROWS

Made of selected 11/32" Port Orford Cedar, fitted with target type parallel steel points. Matched to within 5 grains in weight and identical in spine. Long low (1 in 10) spiral fletching, Speed Index nock. Custom-Built, state arrow length and weight of bow.
No. 387 Matched Field Arrows.....\$9.30 Doz.

No. 388 NON-SKIP FIELD ARROWS

A fine Non-Skip Field Arrow made of selected 11/32" Port Orford Cedar, fitted with Fleetwood 125 grain steel Non-skip point that stops at the point they strike the ground. Matched in spine and weight, long low (1 in 10) spiral fletching and fitted with Speed Index nock. Painted full length of the shaft and beautifully crested. The hunter's practice arrow. Custom-Built, state arrow length and weight of bow.
No. 388 Non-Skip Field Arrows.....\$10.50 Doz.
No. 388-O Same specifications as our No. 388 except made of unmatched cedar shafts..... 7.95 Doz.

No. 338 FLEETGLASS NON-SKIP FIELD ARROWS

Our non-skip insert point is especially designed to stop an arrow where it touches the ground. Fletched with 4 1/2" spiral field type feathers. Matched in spine and weight. Point matches Fleetwood Hunting Points in weight. State bow weight and drawing length desired.
No. 338 Fleetglass Non-Skip Field Arrows.....\$24.50 Doz.

No. 336 FLEETGLASS BLUNT ROVING ARROWS

Same exacting specifications as Fleetglass Non-Skip Field Arrow except a blunt tip instead of Non-Skip. State bow weight and drawing length desired.
No. 336 Fleetglass Blunt Roving Arrows.....\$23.50 Doz.

No. 380 BLUNT ROVING ARROWS

Closely matched in spine and weight, long low (1 in 10) spiral fletching, fitted with slip over blunt points making them almost indestructible. Made of 11/32" or 5/16" selected Port Orford Cedar shafts. Speed Index nock. Painted full length of the shaft and nicely crested. All lengths.
No. 380 11/32" Roving Arrows.....\$9.30 Doz.

Note— Be Sure to State Your Arrow Length

QUALITY TARGET ARROWS

Fleetwood arrows are held rigidly to exacting specifications found only in the very best arrows made. Shafts are doweled from split stock Oregon Port Orford Cedar, properly seasoned and matched in spine and weight in large numbers. Our arrows are spined on our Micrometer spine tester and weighed on our electric scale capable of holding tolerances of $\frac{1}{2}$ grain or 1/1000 of an ounce. Fleetwood arrows hold practically all the records in the Rocky Mountain States as well as in many other territories throughout the United States.

No. 300 FLEETWOOD 24 SRT-X ALUMINUM ARROWS

Made of Easton 24 SRT-X Aluminum Shafting

By far the best material ever made for the manufacture of precision arrows. Possessing a very high modulus of elasticity, and the ability to resist permanent set. Perfect matching, having a one grain tolerance in weight, identical spine. Six diameters of three wall thicknesses each makes possible the correct matching to ALL bows. Precision fletched with 1 in 10 spiral fletching, fitted with Mid-Nox. Crested to your specifications and numbered if desired. Specify Arrow length and bow weight.

No. 300 24SRT-X Aluminum Target Arrows.....\$27.00 Doz.

No. 350 CHAMPIONSHIP TAPERED SELF ARROWS

3 $\frac{1}{2}$ " Spiral Fletching

This grade arrow is rightly called Champions as they are used by champion archers in this and many regions where a really good self arrow is desired. They are perfectly matched in spine and weight within five (5) grains. Selected Port Orford Cedar shafts. Tapered from 5/16" to $\frac{1}{4}$ " at the nock. Spiral fletching with ground base feathers, colored cock feather. 5/16" parallel steel points, $\frac{1}{4}$ " replaceable nocks, neatly painted and brilliantly crested. Made in any length to 30 inch. Stock lengths, 24", 25", 26", 27", and 28".

No. 350 Championship Tapered Self Arrows.....\$9.25 Doz.

No. 365 FLIGHT ARROWS

Made of especially selected high spine light weight Port Orford Cedar shafts, barreled from 5/16" in the mid-section to .22 in front and $\frac{1}{4}$ " or smaller at the nock. Fitted with special flight points and replaceable nocks. May be had with either small parallel feather fletching or celluloid veins. All lengths.

No. 365 Flight Arrows\$1.50 Each

Note—Be Sure to State Your Arrow Length.

FORGEWOOD ARROWS

(UNFOOTED)

Made of Sweetland Compressed Cedar Shafts. Arrows that will withstand rugged field shooting and hunting. Twice the hardness and density of natural cedar. Glass smooth finish. Exactly matched in spine and weight. Made to any standard length and to match your bow.

No. F-10 with Steel Target Point.....	\$19.00
No. F-12 with Non-Skip Field Point.....	19.50
No. F-14 with King of the Forest Broadhead.....	23.50

Important—When Ordering be sure to Specify Draw Length and Bow Weight.

LAMINATED BOWS

The new FLEETWOOD Laminated Working Recurve Bow is one of the finest bows on the market today for the target archers or the bow hunter. This bow has been in the experimental stage since 1946 and has been used by Champions throughout the Rocky Mountain Region during these years. We have designed this bow around four of the best Custom and Commercial bows on the market using the better parts of these bows and eliminating objectional portions. This bow has super cast, smooth shooting qualities, beautiful workmanship and appearance, and correct balance. Made in three popular lengths, 5 foot for the archer wanting a short fast bow for hunting; 5'6" for hunting and target shooting; 5'10" for the target archer wanting the steadiest bow possible. Construction consists of Fibreglass backing, tapered and parallel laminations of maple, walnut riser and Glassface facing. Fitted with genuine leather handle, arrow rest, and double loop Dacron string. Truly a custom quality bow you will be proud to own. Reasonably priced.

No. 130 Fleetwood Laminated Working Recurve Bow.....	\$49.50 Ea.

ARROW STOPPER SAVER

MARSH GRASS TARGETS

Choice of National and Regional Tournament committees nine to one.

TOUGH WILD MARSH GRASS difficult to procure—almost impossible to handle—is used exclusively. Only in Saunders matts will you find this tough, mouse repellent grass used.

An end grain center section, made on exclusive core making equipment, shrugs off wear . . . stops your arrows by friction instead of being cut. Doubles the life of the matt. This is the first improvement in basic matt design since the development of the spiral wind 300 years ago.

Wild marsh grass, plus special patented machinery, plus 14 years of target matting experience, puts this matt in a class by itself.

Burlap Cover Matts. Save muss and fuss! This is a standard tournament quality matt plus a burlap cover. This matt is made on the same patented machines with the same material, by the same skilled craftsmen as our regular matt.

48" REGULATION OUTDOOR TARGET MATT

Here is most popular and useful of all target sizes. Archery clubs, schools, and summer camps find this the most economical size of target matt for all around use.

65 lbs.

Regular
\$19.10

Burlap
\$21.70

36" PRACTICE AND TOURNAMENT TARGET MATT

Back yard practice, summer camp use, and indoor rounds may be shot on this smaller, economical target. Easy to handle and convenient to store, this size is very popular with the serious archery beginner.

35 lbs.

\$11.75

\$13.25

24" FIELD ARCHERY TARGET SIZE

So easy to carry that you can take it along with you on picnics and hunting trips. Get several of these and start a field archery club in your neighborhood.

This bow is made from a new metal alloy No. 75S-16 and equipped with a black non-slip krinkle finish handle. For right or left handed shooters. This bow is not effected by extreme weather conditions and has extremely long life and will cast farther and smoother than any other bow made. Ask the archers who use them. Each PAR-X is accompanied with a registration card and written guarantee of one year. Price \$31.95

"SPEED EASE" Bow Quiver

(for PAR-X Bows) \$4.95

LEMONWOOD BOWS

The Lemonwood (Degame) in Fleetwood bows is imported from Cuba, especially selected for bows and thoroughly seasoned. Characteristic of our bows is the the semi-flat, symmetrical shape of the limbs; not the cheap flat machine made bows so commonly sold. Our bows are hand tillered by an archer-bowyer who has worked at this trade since 1928 and has made over twenty-five thousand fine Tournament Bows.

No. 100 THE FLEETWOOD

Fibre Backed Lemonwood Target Bow with Plastic Bow Tips. This is our finest Lemonwood bow and has proven to be the most durable bow for especially rough use such as Archery Ranges and Colleges. Hand made with the greatest care from selected lemonwood. White or Black vulcanized fibre backing adds beauty to the bow and prevents breakage. Colorful Fleetwood Plastic Bow Tips also enhance the bow's beauty and doubles the life of the bow strings. Genuine leather handle, beautifully shaped walnut overlay, highest grade genuine linen double loop bow string with keeper. Finished in clear flexible varnish, and perfectly tillered. An exceptionally smooth shooting tournament grade bow which will please the most exacting archer. The correct length of bow from 5' to 6' will be supplied to correspond with weight ordered and length of arrow with which it is to be used.

No. 100 The Fleetwood. Any weight to 45 pounds.....\$11.75 Ea.
 No. 101 The Fleetwood. Any weight from 46 to 60 pounds..... 12.95 Ea.

FLEETWOOD HUNTING POINTS

Guaranteed Forever Against Breakage

Finest quality spring steel, tempered and drawn to the hardest possible yet not brittle hardness to hold a razor keen edge.

Fabrication — All Fleetwood Broadheads are spot welded in place then electrically welded by a process which makes the joint stronger than the metal itself. Guaranteed forever against the weld breaking.

Durability — These heads have been shot into bricks, heavy gauge metal, etc., from heavy hunting bows without so much as dulling the point; tests which would demolish most any other head ever produced. Size 1 1/4" x 2 3/4". Weight 125 grains. Made in two sizes 11/32" and 5/16". Please state size desired when ordering.

FLEETWOOD PLASTIC BOW TIPS AND PLASTIC ARROW PLATE

Plastic bow tips add a touch of color and trim to your bow, doubles the life of your bow string. They are very light and do not detract from the cast of your bow. Eight colors.

No. 760 3/8" Bow Tips, 7/16" Arrow Plate.
