Hi All, Here is the whole message from Knief

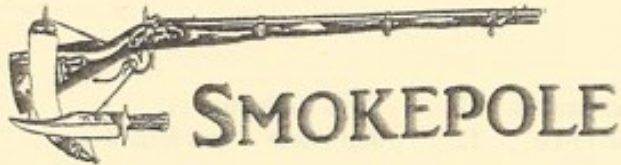

To all FHBPB members, past members and non members,

Please save the date. Saturday, August 20th, The club will be having a special day. We will be meeting at Champoeg State Park at the Riverside picnic area #1. \$5.00 day fee. We'll be meeting at 9:30 am, to have a business meeting (this is Officers nomination month) and our end of the year awards. After that we'll have a potluck lunch with a Dutch oven cooking contest.

Family members are invited and welcomed. Bring lawn games to play, lawn chairs, something for the potluck, your own plates and utensils and if you're interested something for the Dutch oven cookoff. This can be a main dish, side dish, dessert or all three. There will be awards for the best dishes. You may cook it on site with charcoal briquettes. Water, Ice tea and Lemonade will be provided by the club. You may bring other beverages if you like.

I would like this to be a fun get to know each other social event. No work parties, and no guns to have to clean later.

Your President,
Knief

SUMMER SCHEDULE:

No club meetings in June, July or August. No Smokepole in July!

Monthly shoots will continue. Club picnic will be Monday, August 15 at Dorris Ranch in Springfield.

SHOOT: Saturday, June 25, Emerald Empire Gun Club, McGowan Creek Road, Springfield. Your host is Jim Eikenberry. Set-up at 9:30, shoot at 10. Potluck to follow at the Multi-Purpose Building/Clubhouse. Don't forget eye protection if you don't wear glasses. Shoot fee is \$5.

JULY 30 & AUGUST 27 SHOOT: so far we have no volunteers. Walt will notify members regarding July via email or phone if necessary. I will be unable to attend in July as that is my high school 60 year reunion date. Running a shoot can be a lot of fun. I know I enjoy it. The club has a good selection of paper targets and some of us make our own. Maybe you see a cartoon of an animal or something else that can be enlarged at a print shop and copied onto lightweight card stock (better for scoring than copy paper). >No human depictions.

EMERALD EMPIRE GUN CLUB: the latest newsletter reveals there is a critical shortage of volunteers to serve as Range Master on the Public Range. If the Public Range has to close for lack of personnel, the member ranges such as the one we use will have to close also due to club policy requiring balanced use. Our president Walt Evens is Chief Range Master for the EEGC and in charge of getting staff and will be able to inform our members if there is an issue that affects us.

PRESIDENT'S MESSAGE by Walt Evens:

Greetings!

May was our last General Membership meeting for the summer. Our next one will be on Monday, September 19. The newsletter will still come out except for July.

The annual picnic is usually held on the meeting night in August. The Steering Committee will oversee its planning as well as ensure that the club runs smoothly during the break.

We are still trying to find another location for outdoor events or whether to continue working on the Quarry area. I have not heard back yet from the property owners on Sharp's Creek.

Bohemia Mining Days is going forward and is back at Coiner Park in Cottage Grove. The dates are Thursday, July 14th through Saturday the 16th. They'd like us to walk in the parade in period dress. We'll be given a space in the "information" area. As always, we could use some volunteers.

We need Shooting Match Sponsors for July, August and December. Please consider hosting one of these months! It's always more fun and interesting when it's not the same person putting it on.

In the meantime, get out and attend a Rondy or two. If you have any questions, suggestions or concerns, feel free to give me a holler!

Until next time, keep yer powder dry and yer top knot safe! --Walt wrevens@yahoo.com 541-315-2030

SHOOT REPORT FOR MAY 28, 2022 by Walt Evens

The weatherman was spot on with rain in the late morning.

I was the sponsor, so I decided to bring out the clangers and Steve Gilmore's tube. The targets were from 15 to 55 yards. We had 8 participants. There were 10 targets with 3 shots each.

There were a couple of times when the wires that hold them broke, so I had to go out and fix them. Next time the rule will be "if you break it, you fix it!"

It's always nice to shoot at reactionary targets. You get immediate gratification if you hit them, and you don't have to be as precise as on paper.

I want to thank EEGC member John Grimes for bringing his trailer and helping set them up. I couldn't have done it without him. I also want to thank Jim Eikenberry for the additional photos of me fixing the targets.

Four of us remained after the match for chili and other goodies in the Multipurpose Building.

CALENDAR

- June 29-July 5 43rd Annual Jed Smith Mountain Men Tall Trees Rendezvous, Smith River, CA. Lots of events plus parade. Info Brian 707-954-6032. Also on Facebook.
- July 9 Living History Event at Fort Umpqua in Elkton. The site is behind and below the Elkton Community Education Center, worth a visit in its own right. This is a bit different than the Fort Umpqua Days event held on Labor Day weekend as it involves just the fort and a few historic re-enactors doing interpretations and demonstrations. It is an opportunity for members interested in the fur trade.

FOREST HILLS BLACK POWDER BRIGADE SPRING RENDEZVOUS REPORT by Lorraine Hayden

I am back home after a very rainy rendezvous with the Forest Hills BPB. Their new site is very nice. It's on top of the ridge, north above Mill City. Lovely views across the ridge tops when the clouds would lift, elevation 1900 feet. It is on property owned by two founders of the club who bought the property 3 years ago.

Of course, the Beachie Creek and Lyons fires worked their way through the place as a ground fire, so anything under 40' tall burned, but the tall trees mostly survived. Since the place had been logged before they bought it, they lost all of the previous plantings. They got financial assistance to replant, so we had to be careful of the many flagged baby trees, especially in primitive camp.

They are willing to work with FHBPB to improve the site for rendezvous, provided FHBPB helps remove the remaining dead trees and move baby trees next fall to make primitive camp more tent-friendly.

The shooting trail was on an existing skid road into a burned hillside so was safe, accessible and target-friendly. You had to pay attention to the marker stakes as rifle, trade gun, junior, peewee, pistol, squirrel etc. were all mixed in along the same road. Varying distances and colored clangers helped keep shooters on the right targets for their particular course.

The Tin Tipi camp and Trader's Row were under the canopy of the surviving yard trees. There were about 30 camps, both tin and primitive, and many day shooters came too, so there was a nice turnout altogether. Several of the day shooters mentioned they would camp next year, now they knew what the site was like. With 2 years' growth on grass and shrubs, the fire damage was not so noticeable and the site looked more meadow-like than burned, though one had to watch out for those nasty trailing blackberry vines if you ventured off the mowed trails!

SHOOTERS CORNER (writer unknown):

Patch pullers are always a hit-and-miss affair and can be a real pain unscrewing the tip of your ramrod to put on a worm. A shooting buddy amazed us all by pulling out a length of curtain wire about 1/8" thick that had an inch of plastic taken off the end and the wire pulled out to resemble a worm. After he stuck it down the barrel and gave it a few twists he gently pulled out the stuck patch. When all of this was over he just rolled it up and stuck it in his pocket; all of this took under 30 seconds. (I never heard of curtain wire -M)

Your primitive steel knives and forks will rust, so dry well after washing and give them a light coat of cooking oil before storing. A tin cup is tin over steel, which will rust if the tin is nicked. A horn spoon will split if left soaking in water. A well-oiled wood bowl will not split after washing and shouldn't need soaking either.

I recently remembered an article I had put in a newsletter I did years ago; either the Western States Bulletin or my Chips Off the Blarney Stone newsletter. I spent a lot of time looking for it, 4 years worth of WS and that many Chips (half of what I have) so far because I wanted to use it in this month's Smokepole. It's hilarious. I even remember the name of the writer! Maybe I'll find it by August...

OUT AND ABOUT

Well, most of you know that Ted and Lorrie Hartman are now Crook County residents. Their new place is a dream come true and even Shit-head has nestled in. Ted has a nice new shop to get set up while Lorrie has so much room she's beside herself.

Dave and Cherie Cheney have moved all their gear to Chiloquin and are getting settled in. It's a long drive for a monthly shoot, but he will still have his bow making clinics when a group signs up.

We have great grub at our potlucks

White, black, man, woman, straight, gay, Christian, Muslim, American, Mexican...

...all taste like chicken.

Editor's Note

If you chefs that win the cook-offs will share with me your winning recipe, I would like to print them in this area. Are they patented?

TACO @ Camp Sherman

June 3, 4 and 5, 2022, Traditional Archers of Central Oregon (TACO) held an open 3-D shoot West of Black Butte. This was a long or recurve bow shoot with 50+ natural image targets, most life-size ... and none of the trails were scored for competition. They allow non-wood arrows. It was all for fun, hunting practice, and experience. At least six GMLR members shot Saturday and three of us camped over for the potluck and Blue Grass Jam Sat. night; and the drizzle or rain on Sunday. Vendors were on hand to replace missing nocks & points, handcrafted bows/arrows/furs and other equipment were available.

Draggin' Britches, Plain Ol' Bart, Dave Cooley, Dave & Cherie Cheney & Always Late shot the courses.

I had a blast: learned volumes and won a couple drawings.

They are forming a PACO club, Primitive Archery of Central OR. It should be more to our primitive standards with wood bows/primitive arrows. It's a great opportunity for us to sharpen our archery skills.

The Trade Blanket

Last Year I bought Paul's tipi, so now I have my older one for sale or trade. This is a 16ft that I set up using Nomatics instructions . Not sure who made this. Come with Poles, pins and canvas. The door is as I bought it—wild naugahide....No liner. I would like \$400. I would consider a .40 flint pistol, a buffalo hide or other cool stuff in trade. Nick
