

Resurfacing Project Utilizes Heavy Duty Pavement Interlayer to Control Reflective Cracking

GENERAL INFORMATION

Project Title: Pleasant Valley & Brecksville Road Resurfacing
Property Owner: Cuyahoga County
Engineer: GPD Group
Product Used: Glasgrid CG 200
Installed By: PS Construction Fabrics
Install Date: August 2011

BACKGROUND

Reason for Product Use:

Joints and large cracks in existing pavement needed to be reinforced prior to resurfacing

RESULTS

Product adhered to leveling course and paving proceeded without issue. Goal is a 20 year pavement service life with low life cycle maintenance cost.
