

Employee Appreciation fund, a charity, or towards your rent. Please introduce yourself to anyone you see that's taking a tour.

Chef Darrell is back on his feet! Yeah!!! He had a total hip replacement and was out for three months. He thanked all for the well wishes and cards. He asked residents to help him welcome the new chef. Residents said the luau was great! Appreciation to Helen and Gloria and their staff for the hard work and long hours getting ready for these special celebrations.

Chef noted that on October 1<sup>st</sup> we would have a new menu with new, healthy choices! Things like lots of salmon, portabella mushrooms, asparagus. Lots of different sauces too. He's excited about the changes.

We have a tablet on a stand in the back of the dining room, next to the piano. Please go in and review what you think of the menu. Complaints in the past were that the device is clunky and not user-friendly, so we never get any feedback. Out of 1,200 people eating here each day we only get 40 reviews a month! Joanne will go around the dining rooms to show people how to use the tablet. And we will pass out feedback forms for those of you more comfortable handwriting your input. We're here for you!!

Chef asked residents if they wanted the omelet and waffle bars back and they said yes. Rather than put it on the menu, Chef will keep it a surprise, dependent on the kitchen preparation. Positive response from the residents that went to the Action Station.

Various shrimp dishes served at dinner have garlic because it is a sautéed dish. Some may want a shrimp dish which does not have garlic. A lot of pasta dishes have cheese. If you don't want the cheese on top of your dish, you can ask the server for no garlic or no cheese.
