Large Stretched Banners for the Cleveland Browns Stadium...

The outdoor installation of height 22' by 42' stretched banners was superbly realized by Paramount & Co (www.paramountandco.com) located in upstate New-York.

The reasons of Paramount and Co's choice are compelling:

- 1- Simplicity of the stretching system
- 2- Impeccable results
- 3- Cost-effectiveness
- 4- Large inventory

Here is a panoramic view of four of the eight 22' by 42' installed banners.

Two other stretched banners using Tensioning Solutions' stretching frames.

All our aluminum and PVC extrusions are 100% recyclable.

Our entire aluminum and PVC extrusion product line is designed and manufactured in the USA.

How does it work?

Have a look to our video...

Close-up to Cleveland Browns: Joe Thomas

The Cleveland Browns Stadium Food Court with its New 310' x 13' Stretched Vinyl Banner (4,030 Sq. ft.)

The stretching frame was installed on an existing steel frame...

Then the printed graphic was fixed and automatically stretched...

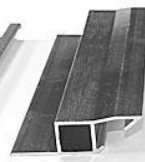

Bottom line, another outstanding realization by Paramount and Co. using our Banner Stretching System.
