Happy New Year!!! Wow, July is here!

We are very excited to be starting our new year this month. There is so much that is promising and lots of new exciting things from Shaklee. This is the time of the year for all kinds of fireworks, family get togethers and vacations. Are there fireworks in your household or your friends and family? Lots of excitement for their future. I am looking for 5 couples who would like \$50,000 annual income and that would like to have that excitement in their home. To have a common goal to work together on and have a future together building their dreams, with the freedom and flexibility of their own that working for another you do not have. Call your own hours, your own income, and your own time off with pay and vacation together. I have taken this business for granted for many years and now see what I have that others would love to have. I am looking for new partners. Call me if you or one of your friends might be interested. We will sit down and then you can decide if this is for you. Don't say no until you know what you are for sure saying no to. We have lots of excitement happening here, As we have chosen to have an exciting, bright and fun future. You know when you make a difference for others, you create fireworks that keep bursting. Not the duds that make a lot of noise but a shining difference. What a wonderful life, giving people hope and excitement for their health or their future. Remember what America was founded on and for. FREE ENTERPRISE. Have a wonderful month. Nina

**FREE MEMBERSHIP IN
JULY!!!**

How to order your products:

Call our office—920-452-2600. We will process your order the same day.

OR www.shaklee.net you will need your Shaklee ID—call us for help

**Hours: Mon 10-3; Wed 10-4; Fri: 10-4
Closed Tue, Thurs, Sat and Sun**

“Even Skin Tags Improved”

My aunt who is now 86 has had Rosacea since 1940's – she'd tried all kinds of prescription meds and creams – still could not find relief. When Enfuselle was introduced, I invited her to try it – risk free. She e-mailed me within

three days to tell me Enfuselle; especially the C and E repair had done the trick. Not only that, but her sisters and friends were remarking on how lovely her skin looked. She's an avid golfer, is in the sun in Florida every day and she looks about 70

years old.

You can bet I'll be faithful to my Enfuselle skin care program after seeing the difference in her skin and my own. I'd started to get red blotchy marks on my nose and cheeks – especially when stress was high. I'd also done a lot of damage from boating in the sun with no protection. Being fair skinned, brown patches appeared all over my face and I was getting a dark “mustache” above my lip. The A.M. treatment took care of the brown pigment problem. I also noticed that moles and skin tags are treated with the P.M. they fade or fall off in time. My skin looks and feels smoother, brighter. We both use the whole program. Deb Sarles

Irritable Bowel Syndrome

First, let me tell you a little about my health. I suffered with IBS (irritable bowel syndrome) for over 35 years, which was directly related to my fibromyalgia. I went to quite a few doctors in that time--believe me. I had numerous colonoscopies and barium x-rays (yuck)--and was diagnosed with IBS. The doctors acted like it was no big deal to have this disease, but if anyone has ever experienced colon issues, well, let me tell you it is awful. At least it wasn't a terminal condition, but sometimes it felt like it was terminal! I was given a lot of different medications for this condition, which did nothing but make me tired and made me constipated. I was at my wits end with pain and inflammation in my bowels, when a friend of mine--(Pat Evans) told me about how Shaklee products changed her daughter, grandson, and husband's lives. I've always thought a lot of Pat and knew she wouldn't just tell me this to sell me, and in fact she wasn't even involved with Shaklee other than being a customer at the time. I had tried different health food stores to help me with my problem, so needless to say, I was reluctant to try another thing. My next move was to go to Mayo Clinic because I was at a point where this condition was ruling

my life. So, Pat said, "Peggy, would you like to talk to the person I get my Shaklee products from...what do you have to lose?" And, I thought, yep, what do I have to lose--BUT, POSSIBLY HALF MY COLON--if I decide go to Mayo! To make this long story short, I got on a program of Soy Protein, Vita-Lea, Alfalfa, B Complex, Lecithin, EZ-Gest, Stomach Soothing Complex, and the savior of it all, Optiflora powder and capsules! I would take the Optiflora capsules a couple times a day at first because I was in such a mess and I was religious to take these products everyday. I gave it a month, but honestly, I really didn't need a month. I actually felt my insides healing within the first couple weeks. I swear by the Optiflora and will continue to use it the rest of my life. My colon issues are pretty much non-existent now. Of course, I have to watch what I eat, but this was a life changing experience and I will be ever grateful to Shaklee and my dear friend. Thank you Pat, you really did change my life..Peggy Schammert

Enfuselle Hand and Body Lotion

With summer, comes sweat. And sometimes stinky smelly armpits.

I had underarm odor my whole life. Very embarrassing and not fun to live with!

I can remember as far back as high school, afraid to lift my arms because of the smell from sweat. The more I kept my arms down, the wetter they got and the more they stunk! I tried every deodorant on the market; nothing worked. All they did was give me itchy armpits. I tried showering more often, covering up with perfume (which is not a good idea) and nothing helped.

I would hold my arms up so they wouldn't get wetter. Because the wetter they were, the more it would smell. I had to lift my arms for a long period of time to try and keep my armpits dry because before you know it, they would get wet and start to smell. But I couldn't always keep my arms up in the air. How crazy would that look! One day out of extreme frustration, I searched the Internet and learned that any body odor problems are from “bad bacteria” (just like what happens in the colon).

BINGO! I knew one of our products had the good flora in it and could balance that ‘bad bacteria’ out. (just like Shaklee's opti-flora does in the colon but for your skin).

Sure enough! I tried it and it worked!!! I haven't had that smelly sweaty underarm odor for the last 15 years! Not even in the summer! Yeah!

The product I'm referring to is Shaklee's Hand & Body Lotion.

Enfuselle Hand and Body Lotion

Continued.....

Another benefit...

I remember my skin being so dry and itchy all the time when I was younger. I tried all the real good brands of lotion on the market and the not so good brands. The Hand & Body Lotion is the only thing that completely changed my skin. I get compliments on my skin since using it. My skin is so soft everywhere. Now I know why! There is nothing like it on the market. Guaranteed! And...it may help someone who has foot odors too. ~Jodi Geline

Promotes visibly firmer skin; provides instant moisture surge and continued release for up to six hours.

- Neutralizing phytic acid counters skin-damaging reactions triggered by Iron in tap water
- Targeted prebiotic selectively nurtures skin's natural protective system
- Patented Vital Repair+ complex protects against prematurely older-looking skin

Vitalizer and Vivix Pain Free in 3 Weeks

I started Vivix and Vitalizer for Men three weeks before Christmas. Let Me back up and give a brief history of my condition:

I have Spinal Stenosis, Rheumatoid Arthritis in my Hands-Neck-Shoulder-Back and Knees.

I have had this condition for several years with no relief in sight. And as my condition worsened I could no longer do the things I used to do – gardening for one and handyman services. My Shaklee friend, Carmella, ran into me at the Senior Center and saw me with my hand braces and asked how I was feeling --- I proceeded to tell her all of the above. I soon started on Shaklee! After three weeks on Vitalizer and Vivix, all of my ailments were almost completely gone. I noticed that I had no pain in my neck and the RA in my hands was almost completely gone. I can drive my car with no pain in my hand, I am able to make my bed with NO pain, vacuum my apartment with NO pain, shampoo my carpet (three rooms) NO PAIN. I am feeling more alert with more energy to do things than I have in a

LONG time. The next test is walking; I used to walk ten miles every day for twenty year, now I am only able to walk two or three. I hope to get up to at least five miles daily. --- Johnny

From Jennifer Hart,
Louisville, CO

My son was on antibiotics for 1 whole year – I was using the Shaklee cleaning products for my son's asthma, but then went to a Shaklee "healthy home, healthy you" event and learned a little more about the nutrition

I started my then 16 month old on a regiment of Optiflora Probiotic & Prebiotic System, multivitamins and even Nutriferon. His pediatrician wanted to put tubes in his ears and I begged and pleaded for 2 months. We were strict about him taking the vitamins and when we went back 2 months later, he was ear infection free! He turns 5 next week and hasn't been on a prescription since May 2009! He broke the cycle, built up his natural immunity and now takes 2 Incredivites chewable multi, 1 Mighty Smart DHA chew, 1 Optflora Probiotic, Immunity Formula I, 2 Nutriferon, 2 Chewable Vita-C's, a Vita-E and a Vita-D3! My pediatrician is amazed at the turnaround in our health and now even recommends Shaklee's multivitamins for his pediatric patients!

Basic G and Ants

I was weeding my flower bed and noticed that my butterfly house was covered with ants. I grabbed my Basic G and sprayed the outside and inside. I noticed shortly there after no ants anywhere near my butter fly house the rest of the day or now a

couple of weeks and rains later. None of my roses or other flowers that got the over spray showed any distress afterwards. Well what about the butterflies? I have never seen a butterfly in or near that butterfly house since I first acquired it

14 years ago. The wasps wouldn't leave it alone. I had just removed the wasps two weeks before the ants moved in. lol And that my friend is the rest of the story. Bev Affeld

Mocha Madness
 1 cup unsweetened almond milk
 1 tsp instant coffee
 10 chocolate chips
 2 scoops vanilla or Latte Shaklee
 180 Smoothie Mix

Thin mint continued...
 • 1 to 2 handfuls spinach or kale
