- A. News articles reviewed were in conflict with each other as to the funding of the service, clarification is needed.
- B. Discussion of benefit to the citizens of Bolivar. Property values were one thing that most everyone would realize in marketing their homes to prospective buyers. The ridership in the data reviewed had the Harpers Ferry station at 100.
- C. We will try to determine how many Bolivar residents use the MARC. This information will be reported to Town Hall and can be used for our report to the County Commission.

Our discussion ended at 7:55

Respectfully Submitted,

Helen Dettmer, Mayor
