The purpose of this study is to highlight several key and unique properties of the May 20 Annular Solar Eclipse of 2012. Such astronomical eclipses are prophetic signs such as with the Venus Transit event for example. This study suggests that such cosmic signs are but a dress rehearsal or a picture of a Rapture as Christ the true Venus that is to come for His Bride. In like manner so too does the Pleiadian solar eclipse of 2012 have overtones of the coming descent of the AntiChrist in conjunction with his New World Order. This study will provide an esoteric context and celestial perspective associated with its symbolism and parallels associated primarily with the notions of the Phoenix in direct association to the planet Venus. In particular, this study will suggest that the Pleiadian Eclipse event was signaling the descent and ascent of Venus as Lucifer, the Phoenix as a picture of the coming of the AntiChrist. The solar eclipse reference point will be taken from the Chichen Itza Pyramid looking westward above the Earth's horizon on May 17, 2012.

The specific coordinates were 18h 33m, 20° 40' 01 N (20.6667), 88° 34' 09 W (-88.6). The May 20, 2012 Annular solar eclipse had several key and unique properties associated with it. Each of these celestial attributes listed are directly linked to the eclipse and affect to other celestial occurrences. Several unique celestial attributes will be highlighted during this time period from March to May of that same year. On March 20th, the Phoenix shadow imagery of a serpent was depicted coming down the Chichen Itza Pyramid on the Spring Equinox. Then on April 2-3 there was a unique Venus-Pleiades conjunction that occurred. On May 17 the subsequent Venus Retrograde descent into Taurus' Hyades pyramid happened thereafter. This was followed by the May 20 Annular solar eclipse that was in conjunction to the Pleiades. This same date of the May 20 saw also the alignment of the Earth-Moon-Sun with the Pleiades.

This alignment configured a 45° celestial triangle patterns on Earth with the Pleiades, and the city of Phoenix, Arizona in the USA. Based on these corresponding celestial depictions, this study suggests that there was a correlation with the descent of 2 'Birds,' the Evil Venus-Phoenix 'Bird' with the Jewish-Christian Feast of Pentecost's Holy Spirit 'Dove'. To some esoteric communities, this Annular solar eclipse with its unique and rare conjunction to the Pleiades on May 20, 2012 can be attributed to the eventual return of the Phoenix. Venus is known to be associated with Lucifer and the Phoenix in the ancient world because Venus is one of the brightest moving stars in the known heavens. Even in the modern era, Venus is still associated with Lucifer or the coming of the AntiChrist. The Phoenix is known by many names to many cultures.

Synopsis

Each culture has had their own names given to Venus but all of them refer and converge on 1 personage, that being of Lucifer, the Shining One. This imagery of the Pleiadian Eclipse event is pure speculation based on the observation of the stars and planets at this particular time and date. This study is not suggesting that at that specific time, the literal AntiChrist was to have been revealed but a type. The conjunction of Venus with the Pleiades on April 2-3, 2012 lends an association to the Phoenix imagery on the Spring Equinox. From the point of view of the Pyramid of Chichen Itza, the visible retrograde of Planet Venus started to occur around May 17-26, 2012 in the constellation Taurus. Thereafter it dipped below the Earth's horizon on the 10th day.

During these 9 days Venus took on the characteristic of the classical Phoenix Bird 'falling' due to its retrograde motion and path in the sky appearing to come down. It so happens that 9 days after the start of the Venus-Phoenix descent was Pentecost. Pentecost provides yet another image of a 'bird' or dove connotation and imagery in this case astronomically a dualism at play. In the 2nd case of Pentecost, it commemorates the time when the Holy Spirit as a 'dove' with Tongues of Fire descended also onto the world and especially on Followers of Jesus Christ in the account of the Upper Room from the book of Acts. Thus the Pentecost on 2012 not only occurred on both the Jewish and Christian calendar days but it could allude to an effect on Earth as it mirrored the imagery in the Heavens.

This could have been a rehearsal of the eventual Event that as Venus is descending as the 'Evil' Phoenix upon the Earth, the 'Holy' Dove will be ascending from the Earth to be taken back into Heaven. What is also striking in terms of imagery is that at the position in the stars where Venus started its retrograde coincided with the constellation Auriga. This constellation depicts the Wounded Shepherd gathering His 2 Flocks of a she-goat and 2 lambs on the Earth's horizon. This study suggests that such depictions are but prophetic signs in the cosmos of the actual event that will come about perhaps in one's lifetime. This prophetic speculation of a Rapture picture is only suggested based on these corresponding celestial events that appeared to possibly mirror a course of events to take place on Earth as it is in Heaven at a future time.

The cosmic theme is consistent though the Bible does predict a coming time of a literal descent of the AntiChrist and a rising of the Body of Jesus Christ. It will be a time when Believers in Jesus at some point in time will ascend that perhaps might even be associated with a Pentecost time frame. This imagery is only suggesting that the AntiChrist for example as associated with the movements of Venus in conjunction to the solar eclipse could merely only foreshadow the coming of a Person as the Phoenix which is attributed to the coming of the AntiChrist. A brief overview of the possible prophetic implications will be suggested next of whom it would be based on the 'signs in the stars' that the LORD Jesus Christ commanded His Church to look at to discern the times of the End of Days.

The Pleiades כימה

As it has been noted, the Pleiades is a cluster of 7 stars within the constellation of Taurus. Some cultures believe that the whole universe centers around one of the stars in particular, Alcyone. Venus conjoined Alcyone on April 2-3, 2012. Based on research, this conjunction has not occurred since 853 AD. Thus it is extremely rare and thus possibly very significant prophetically. To the Maya, the Pleiades are associated with the '*Rattle of a Snake*'. The Mayan word for rattle is *tzab*, the same word used for the Pleiades in their language. On May 20, 2012 the Pleiades did reach a celestial Zenith directly in line with the Chichen Itza Pyramid. This was 60 days after the Spring Equinox of March 20, 2012 when the serpent shadow of the Phoenix was cast on the Pyramid steps. May 20, 2012 was also the 140th day of the year; 141st in leap years.

According to the Maya, on this day the Sun-Earth-Moon joined together with the Pleiades. This association made a 45° celestial triangle that was also configured with the Annular solar eclipse conjoined to the Pleiades along the Celestial Equator. What did this celestial array of amazing alignments mean? An Annular solar eclipse occurs when the Moon passes directly in front of the Sun, but the Lunar disc is not big enough to cover the entire sphere of the Sun. The Moon can only form a 'black hole' within the Sun disc or a ring. This is where many in the occult attribute the Lord of the Ring to such a celestial event. On May 20, 2012, the Annular solar eclipse swept across East Asia, over the northern Pacific Ocean and then down into the Southwest of the U.S.

On an aside note, a 2nd solar eclipse occurred on November 13, 2012 that marked a conjunction between the Sun-Moon-Serpens. These two solar eclipses in 2012 physically represented on a smaller scale the gigantic Galactic Milky Way Serpent or Ouroboros. How this celestial depiction was conjured is that the May 20 Annular eclipse was the 'beginning' having the first association with the 'Serpent' Phoenix and Venus. The 'end' one, a total solar eclipse was associated with the other 'Serpent' as in that of Ophiuchus. To the occult, it is Ophiuchus that is associated with the coming of the AntiChrist, perhaps by the events such as the eclipses and planetary alignments. The Luciferians saw these 2 solar eclipses as a pronouncement of the soon coming of their AntiChrist nonetheless; a sort of esoteric Alpha and Omega.

The Bible does stipulate that the announcement of the AntiChrist's coming signature will be accompanied by 'Signs and Wonders'. As noted, at Chichen Itza every year on March 20th, when at the Spring Equinox occurs, a 'shadow' is cast on the Pyramid that produces a descending Serpent or Phoenix down its northern stairs of the pyramid. The year 2012 happened to be a peculiar year in that 60 days after the Serpent/Phoenix's shadow appeared the Annular solar eclipse occur on May 20, 2012. On this day there was the Earth-Moon-Sun in conjunction with the Pleiades. Now does this signify something prophetic that took place or got initiated? That remains to be determined. This Zenith alignment of the Pleiades to the Pyramid at Chichen Itza only happens every 72 years. It so happens that the 'Unfinished Pyramid' of the Illuminati on the U.S. Reserve Seal has 72 blocks leading up to the capstone.

Descending and Ascending Birds

This study is thus suggesting that such astronomical numerical counts are directly associated with the Luciferian symbols on Earth. The number 72 is also how long it takes for the Precession of the Equinox to move 1 degree. Nonetheless, this imagery of the Phoenix Bird running down the stairs at Chichen Itza Pyramid attributes Venus to being directly associated with the Pleiadian Eclipse. In the ancient and present occult, Planet Venus is the Phoenix. After the April 2-3, 2012 Venus conjunction with the Pleiades, the start of Venus-Phoenix retrograde began. From the point of view of the Chichen Itza Pyramid, the 'descent' starts around May 17. Venus traveled through Taurus as a picture of the Serpent or Phoenix Bird descending down the Horns of Taurus for 9 days as it did on the pyramid of Chichen Itza.

Likewise, the Chichen Itza Pyramid has 9 Steps and is at a 45° degree slope. Venus was in this position in the sky at a 45° angle in relation to the Pyramid at the start of the Retrograde as well. Coincidentally or not, the 9 day Venus-Phoenix Bird retrograde descent excluding end day, down Taurus' Horns concluded on Pentecost which was on May 26, 2012. With the Feast of Pentecost, there is another Fiery Bird symbolism to consider. Pentecost is when 'Fire' from the Holy Spirit which is symbolized as a 'Dove' descended on those Followers of Jesus Christ in the Upper Room as depicted in Acts 2. Pentecost was to be counted as 7 weeks of 7 days or $7 \times 7 = 49$ days from the 1st Sunday after Passover thus the 50th or penta meaning referring to the number 5. Thus on this date and time of May 26, 2012 a bird or dove is commemorated as having also descended and coincided with the Phoenix also descending or 'arriving' on Earth.

Perhaps this is an astronomical picture of now the Rapture event will culminate at some Pentecost season. Was this descent of Venus as the Phoenix coming down to Earth to unleash the spirit of the AntiChrist? Or will it be an 'anointing' of someone perhaps that will be later on identified as the AntiChrist once the Rapture takes place? Venus rose for 9 days thereafter above the Earth's horizon and out of Taurus from July 25 to August 3, 2012. It was believed that the cycles of Venus brought a prelude to the coming destruction of the Old Age to make way for the New Age. Many are anticipating this transition to replace the current Age and Phoenix that is the USA. Perhaps such a given celestial depiction will culminate in the real deal and not be just a dress rehearsal one day. This could be the time when as the Phoenix descends to Earth, the Dove ascends back to Heaven.

Regardless, this Venus Transit won't happen again nor coincide with Pentecost for that matter for about another 100 more years. As noted, in 2011, the USA witnessed a journey of the 13 Crystal Skulls that started at Chichen Itza. The 'descent' of the Red Dragon or 'Phoenix' came from the opposite side –the East coast at a 45° descent that ended in Los Angeles. It was a spiritual journey bent on calling up the ancient spirits that laid dormant ready to be awakened to purge the continent and make it ready for the 'Return of the Shining One'. Interestingly, 6 months later the Annular solar eclipse entered the USA from the West coast at a 45° angle from Phoenix, Arizona.

Journey of the Phoenix

The Eclipse's path came from the opposite end of the USA and ended near Roswell, New Mexico. This is the place of the 'Alien crash' and is at the 13° Latitude from Chichen Itza. In 2009, a Crop Circle in England depicted a Fiery Phoenix within an Annular solar eclipse configuration and associated with a number-planet count. There were a number of 'nodes' or circular points throughout the imagery; 3 at the top, 6 in the middle and 2 at the bottom with the configuration of the Phoenix within the Annular eclipse. These nodes could have been a possible clue as to the overall meaning and association of the Annular solar eclipse of May 20, 2012 and the Phoenix imagery.

This imagery possibly encoded a length of years for the 'implosion of a Phoenix' to occur as the Phoenix alludes to—perhaps that of the USA as the solar eclipse 'end' in the USA. If the number of nodes is equal the position of the planets from the Sun, then 2=Venus, 3=Earth, 6 = Saturn, etc. Then one can come up with a number code of 3-2-6 or 236-years meaning with some liberty of interpretation. It so happens that in 2012, July 4th the number of years the USA has existed since 1776 was 236. Or perhaps how long the USA was 'designed' to exist out of the 243-year Venus cycle that the illuminati 'Unfinished Pyramid' represents on the Reverse USA Seal.

On another side note, the crop circle did also have a peculiar design in that an object or celestial body appears to be behind Sun or eclipse. The 2009 Phoenix crop circle characterized by peculiar Node count was no doubt a foretelling of the May 20, 2012 Annular Solar eclipse. Its association with the occult is that it was to end up in the path of Phoenix, Arizona is very telling perhaps to forewarn that the current Phoenix that is the USA is about to set to make way for the new one to come. Moreover, many speculate that this was indeed a prophetic sign that the 'Phoenix' along with the May 20, 2012 Annular solar eclipse were connected with the imagery of a 'birth' and 'death' cycle of the Phoenix and thus perhaps of the USA in the coming future.

Perhaps this solar eclipse is an announcement of the end of the USA as one knows it to be today; that of the 'Old Phoenix' is soon to be imploded to make room for the New One to arise in conjunction to the movements of Venus, the Pleiades and eclipses perhaps. This is according to the esoteric diabolical plans the Luciferians that rule the current world have had for the USA from the very beginning. Perhaps it will be with the implosion of the US Illuminati dollar that bears its seals, or thanks to the NDAA and other legislation, Martial Law will be imposed due to some cataclysmic event once the USA Phoenix is imploded.

This plan is even encoded in their very symbols of the USA pyramid seal. The Luciferian's 'New Atlantis' or USA was to last 1 cycle of Venus or 1 lifespan of a Phoenix. The Venus Cycle is considered to be 243 years in length, the average lifespan of a national Phoenix is the following.

(1776 + 243 years = 2019/20)

*2012 = 1776 + (243) = 2019 - 3.5 year or 42 months = **2015.5***

The Phoenix to be Reborn

Did something very sinister happen to the USA behind the scenes that secured its very demise at that time? The USA's Reverse Seal bears a Pyramid with the 'signature' of the 243-Year Phoenix Venus cycle encoded within the design of the Unfinished Pyramid. This Luciferian emblem comes from the 'Builders' that control this current U.S. government and the world. It comes from the 'Synagogue of Satan' masked as religious orders seeking the blessings of their Master Lucifer. Their motto is *'Bless our Work'* in Latin. The All Seeing Eye is the Eye of Lucifer. There are 72 Blocks in their unfinished pyramid. As noted this is the number of years it takes the Pleiades to be in a celestial zenith alignment with the Chichen Itza Pyramid. The unfinished pyramid emblem also has 13 Levels.

Chichen Itza is on the 13° latitude from the 'Phoenix' latitude in the USA of 33°. The hidden code within the lettering spells out *M-A-S-O-N*. The base of the pyramid is marked by the year 1776. This specific year is a count-up to an 'Initiation' to come in the future that will not be good for America. The emblem's title is called *New World Order*. To the esoteric, the end of this year-count is when Lucifer as Venus is to descend like a Phoenix on Earth or the return of Kukulcan to the Maya down the pyramid stairs as on the Equinoxes. This AntiChrist astronomical typology is 'clocking' when perhaps the descent of Lucifer's AntiChrist is to come to help Humanity implement their diabolical and evil New World Order.

The lie or conspiracy as noted already is that such promote this time as being good and necessary for Humanity's next stage of evolution toward godhood. Perhaps the year of 2015.5 was the time in the year that there planned diabolical Luciferian 'initiation' was set into motion in the USA and across the globe to induce 'chaos out order'. Of note, the Luciferian Synagogue of Satan also uses the Jewish calendar. New Year starts in the fall on Rosh HaShanah. In the year 2015, the Jewish year of 5776 started. It was precisely on September 13, 2015. What is prophetic about this year is that it is deemed the 'Year of Lucifer', that of Lucis or lights. The year 5776 will be a 'capstone year' that will perhaps see a completion of a mater and a commencement of its antithesis. Perhaps the Pleiadian Eclipse and the Transit of Venus was associated with a 'Man' who is the Phoenix to be resurrected at some point in time as well.

As Christ had a 'body prepared for him', the Bible states that the AntiChrist will mimic a false physical resurrection of sorts in preparation for the eventual indwelling of Lucifer into the AntiChrist. According to some interpretations of the coming prophetic scenario will occur at a future date after the Rapture of the Bride of Christ. Specifically the Bible does foretells how long Lucifer will have, for he knows that he has but a short time. Lucifer will only have 42 months of total reign on earth before he is cast-off into the Pit, not Hell for 1000 years. This will occur when Lucifer and his Fallen Angels wage war in Heaven. They will be cast down to Earth, perhaps through celestial or interdimensional portals, i.e., Stargates. To the Maya, they are prophetically anticipating the return of Kukulcan or 'Venus' the Phoenix to come through a door or portal that were associated with their pyramid building and locations.

Pyramid Portals

The Egyptians knew of the 9-level pyramid layout and significance because it was associated with the retrograde and 243-Year cycles of Venus. This correlates to the 9-Days Venus descends as the Phoenix went below the Earth horizon to enter the 'underworld.' To the occult, Luciferians, Masons, New Agers and others, it is the Shining One or Lucifer that like Jesus Christ promised to return and appear to help Humanity usher in the New Age at the End of Days through a 'Gate'. Pyramid locations due to their positioning can generate vortexes to produce a sort of 'portal' or door that may pierce other dimensions. There have been many studies about this already.

In 2009 a famous picture of a light beam was captured on top of El Castillo of Chichen Itza. This picture has been in dispute ever since but in theory such an occurrence is possible. Chichen Itza is laid out on a Golden Ratio Φ configuration that could generate such forces given the right conditions due to its ley-line alignments. The Pyramid complex of Chichen Itza is about 20° off true North but its East-West axis is aligned to the setting of the Sun and Moon. Nonetheless, such a beam of light or force could be used as part of a coming 'Initiation' to undertake some sort of 'resurrection' as part of the 'Sign and Wonders' the AntiChrist will perform.

Perhaps such will be what will constitute the 'fire that will be brought down from heaven' that the False Prophet will mesmerize the world with. Such an event perhaps will be aided by an eclipse, a Pleiadian alignments, geometry and sacred magic coming from the celestial realm of Lucifer. Perhaps a pyramid type of mechanism that harnesses such energies will be used as an instrument of his AntiChrist's false 'resurrection'. Nonetheless the Luciferian long for their 'Osiris' as much as true Christians long for their 'Orion', Jesus. One image is very peculiar that was found in an Egyptian pyramid relief that is strikingly similar to El Castillo pyramid at Chichen Itza, a continent away.

Both pyramid designs have similar 'serpents' transcending the pyramid stairs. Odd enough, one translation for Itza is 'Wizard of the Water' as in Poseidon and Neptune, the god of the deep waters and the depths of Earth from where the Beast is to come out from. It has connotations to such a man being an Enchanter or the Leviathan. If one places a center line down the Egyptian pyramid relief, it dissects the phallus or member area of Osiris that is entombed at the base of the pyramid. It so happens that Pluto is representative of the Lord of the Underworld that entered Capricorn in 2012.

Interestingly the last time Pluto entered Capricorn was in 1762-1777 the time of the American Revolution and when the Columbian branch of the Illuminati in the New World was initiated in 1776. Does this sign of Pluto and its retrogrades in the Sign of Ophiuchus suggest that it will be working its 'magic' to raise the AntiChrist from the deep? Is this another clue that the 'Lord of the Underworld' is about to pierce space and time as a type of Nimrod to establish yet another 'rebellion' and last 'World Order' on Earth as he first did with the tower of Babel? Was the Tower of Babel 5776 inches high like the Great Pyramid of Giza or 1776 feet tall as the 'Freedom Tower of Manhattan's Orion star map?

As it has been shown, this study suggests that the various pyramid complexes around the world are fixed to certain ley-lines and angles. The following is but one example incorporating eclipses. There were several 45° celestial triangles that are associated with the angles from the occurrence of the May 20, 2012 Pleiadian Annular Eclipse. The following are considered.

1) A 45° angle was configured with the Annular solar eclipse and the Pleiades along the Celestial Equator.

2) If one superimposed a 45° Right Triangle with the base along the Annular solar eclipse center line as it entered the USA, then Phoenix, AZ was at the zenith on the 33° latitude. Also, Roswell, New Mexico was at the same 33° latitude as the eclipse. From this same geometry an equilateral triangle from Los Angeles to Phoenix, Arizona is configured. The combined triangles conjoin at Albuquerque, New Mexico. The May 20, 2012 Annular eclipse ended just outside Midland TX.

3) The same 45° triangle pattern configuration can be superimposed from the Annular solar eclipse Zenith that occurred in the north Pacific with the end-points marking off the start and ending latitude-longitude lines of China and Chichen Itza.

4) The Chichen Itza Pyramid was also at a 45° angle that mirrored the Ecliptic apex geometry.

Some say that the solar eclipse traversing the USA and its association with the 'Phoenix' imagery is a very bad omen for the nation to come. Others speculate that this celestial occurrence has signaled a great change to come on Earth but particularly in the USA as the American Eagle is really a masked Phoenix that is designed to set. To others, this celestial Pleiadian eclipse was significant enough to suggest that based on the current economic, social, religious, political condition of the USA the eclipse was signaling the end of the USA's dominance as it is known it to have been. A 'Falling' of the Republic of sorts like a Phoenix if you will is to occur, if at least astronomically.
