

NCRTAC Subcommittee: Definitive Care

Date: 9/24/15

Present: Jason Keffeler and Terry Nichols

Recorder: Terry Nichols

Discussion:

Spine Immobilization verses Spine Precaution

- No changes at this time to our Position Statement
- Discussed NEXUS criteria

Shared Regions Trauma Video (at 4 hour counter) it discussed 11 ATLS principles needed during a transfer.

- Typically on 3 done; most frequent missed is rewarming a pt (regardless of the time of year).
- Jason will share the list of 11 items.

Discussed creating a survey for Definitive Care requests

- After further discussion, recommended having a Needs Assessment survey for our RTAC to help determine priority needs for committees as well as the trauma conference topics of interest. Will request this topic be added to the next Executive Council agenda.
- Could have each subcommittee add a few questions to the survey.
