

**Hello! My name is Rachael and I joined the MacFadyen team in April of 2018. I graduated from the Early Childhood Education program at Mohawk College in June of 2013. Throughout my five years of being in this field, I learn something new every day. I strongly believe that the early years are the most important as the early years build a child's foundation. Providing a nurturing and caring program for children teaches them that they are important, which builds their self esteem. I have thoroughly enjoyed my time here and looking forward for more experiences here.**
