A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective July 5, 2023, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www. HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon A will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an \boxed{A} are on the assigned lead- time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Product Information

Description

While its iconic form has remained largely unchanged, the Aeron[®] chair has been remastered from the casters up to meet the needs of today's work and workers. With the help of original co-designer, Don Chadwick, we thoughtfully updated the chair based on the latest research around the science of sitting, and advancements in materials, manufacturing, and technology.

The new Aeron chair comes in 3 sizes and has a new 8Z Pellicle® material that delivers increased comfort and ergonomic support. Across the seat and back, 8 latitudinal zones of varying tension envelope the sitter, tightest at the edges and more forgiving where the body makes contact. The chair has pneumatic height adjustment and a balanced recline that lets the body naturally pivot at the ankles, knees, and hips.

Tilt options include a tilt limiter that allows the user to select the tilt range to limit the amount of recline; a tilt limiter and seat angle that allows the user to select the tilt range and a horizontal or 5° forward seat angle; or a standard tilt.

Back-support options include adjustable PostureFit® SL, an adjustable lumbar support, and PostureFit. The adjustable PostureFit SL support provides a custom fit in sacral and lumbar regions of the spine that helps achieve healthier posture and improved lower back comfort. The user can fine tune the level of support with an adjustable knob on the PostureFit SL.

Arm choices include a fixed, nonadjustable option; a heightadjustable option that moves the arms 4" vertically; a heightadjustable plus pivot option that moves the arms 4" vertically and pivots the armpads 15° outward and $17^{1}/_{2}^{\circ}$ inward; and a fully adjustable option that also allows the armpads to move forward and back.

Aeron is now offered in a range of 4 tightly curated, holistic material expressions: onyx, graphite, carbon, and mineral. Onyx is a unified expression of luxury and strength. Graphite refines Aeron's original color scheme for a crisp, sculptural appearance. Carbon blurs light and dark, and warm and cool, to harmonize with a variety of environments. Mineral illuminates Aeron's finer points to offer a lightness that borders on translucence.

Notes

To help determine chair size, see Aeron Chair Size/Fit Reference in Appendices.

For information on casters and glides, see Casters and Glides in Appendices.

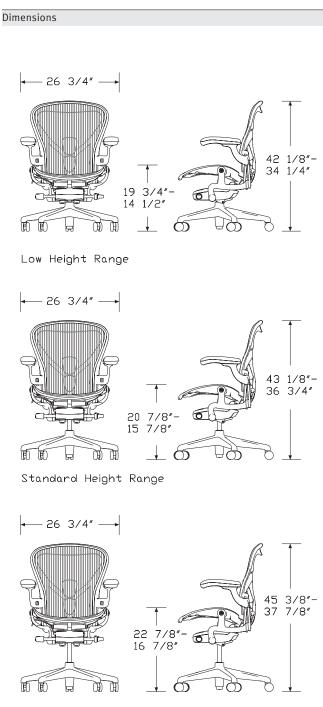

Customer's Own Leather (COL) can be applied to armpads; requires 4 square feet. See Order Information in Appendices.

As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

MicrobeCare[™] is an antimicrobial coating that can be applied to a wide variety of Herman Miller Group surfaces to protect products from mold, mildew, algae, and bacteria that cause deterioration, discoloration, odors, and stains.

MicrobeCare™ is a US Environmental Protection Agency (EPA) registered nonpublic health antimicrobial.

MicrobeCare[™] is applied to the major touchpoints, including the seat, backrest, arms, armrests, frame and adjustment controls.

Work Chair, Ready to Assemble

AER2A AER2B AER2C

Product Information

Description

While its iconic form has remained largely unchanged, the Aeron[®] chair has been remastered from the casters up to meet the needs of today's work and workers. With the help of original co-designer, Don Chadwick, we thoughtfully updated the chair based on the latest research around the science of sitting, and advancements in materials, manufacturing, and technology.

The new Aeron chair comes in 3 sizes and has a new 8Z Pellicle® material that delivers increased comfort and ergonomic support. Across the seat and back, 8 latitudinal zones of varying tension envelope the sitter, tightest at the edges and more forgiving where the body makes contact. The chair has pneumatic height adjustment and a balanced recline that lets the body naturally pivot at the ankles, knees, and hips. Chair components are packaged and shipped ready to assemble.

Tilt options include a tilt limiter that allows the user to select the tilt range to limit the amount of recline; a tilt limiter and seat angle that allows the user to select the tilt range and a horizontal or 5° forward seat angle; or a standard tilt.

Back-support options include adjustable PostureFit® SL, an adjustable lumbar support, and PostureFit. The adjustable PostureFit SL support provides a custom fit in sacral and lumbar regions of the spine that helps achieve healthier posture and improved lower back comfort. The user can fine tune the level of support with an adjustable knob on the PostureFit SL.

Arm choices include a fixed, nonadjustable option; a heightadjustable option that moves the arms 4" vertically; a heightadjustable plus pivot option that moves the arms 4" vertically and pivots the armpads 15° outward and $17^{1}/_{2}^{\circ}$ inward; and a fully adjustable option that also allows the armpads to move forward and back.

Aeron is now offered in a range of 4 tightly curated, holistic material expressions: onyx, graphite, carbon, and mineral. Onyx is a unified expression of luxury and strength. Graphite refines Aeron's original color scheme for a crisp, sculptural appearance. Carbon blurs light and dark, and warm and cool, to harmonize with a variety of environments. Mineral illuminates Aeron's finer points to offer a lightness that borders on translucence.

Notes

To help determine chair size, see Aeron Chair Size/Fit Reference in Appendices.

For information on casters and glides, see Casters and Glides in Appendices.

Customer's Own Leather (COL) can be applied to armpads; requires 4 square feet. See Order Information in Appendices.

Note: As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

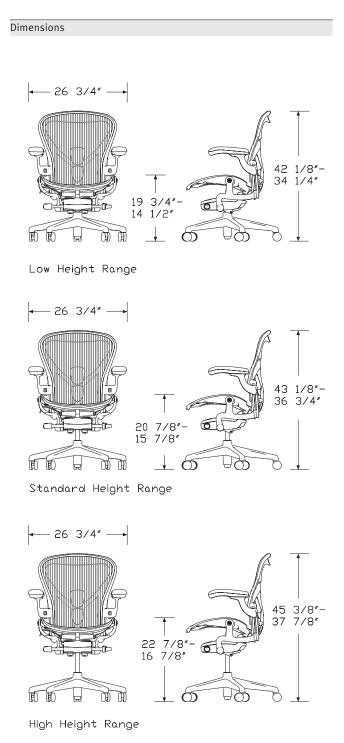

MicrobeCare[™] is an antimicrobial coating that can be applied to a wide variety of Herman Miller Group surfaces to protect products from mold, mildew, algae, and bacteria that cause deterioration, discoloration, odors, and stains.

MicrobeCare™ is a US Environmental Protection Agency (EPA) registered nonpublic health antimicrobial.

MicrobeCare[™] is applied to the major touchpoints, including the seat, backrest, arms, armrests, frame and adjustment controls.

Product Information

Description

While its iconic form has remained largely unchanged, the Aeron® chair and work stool has been remastered from the casters up to meet the needs of today's work and workers. With the help of original co-designer, Don Chadwick, we thoughtfully updated the chair and work stool based on the latest research around the science of sitting, and advancements in materials, manufacturing, and technology. The new Aeron stool has a new 8Z Pellicle® material that delivers increased comfort and ergonomic support. Across the seat and back, 8 latitudinal zones of varying tension envelope the sitter, tightest at the edges and more forgiving where the body makes contact. The work stool has a 2¹/₂"-wide footrest platform that provides three times more surface area than a typical footring to reduce pressure and increase comfort. Non-slip treads offer added stability. When adjusting stool height, the footrest moves with the seat.

The stool has a 5-star base, pneumatic seat-height adjustment, and 2 height options to allow stool use with counter or bar height surfaces. The low stool has a seat-height range of $24^{3}/_{4}$ " to $29^{1}/_{4}$ " with a footrest that adjusts $2^{1}/_{2}$ " (from 15" to $17^{1}/_{2}$ " below the seat) and is optimal for work surfaces between 34" and 38" high. The high stool has a seat-height range of 28" to $34^{1}/_{4}$ " with a footrest that adjusts $5^{3}/_{4}$ " (from 15" to $20^{3}/_{4}$ " below the seat) and is optimal for work surfaces between 37" and is optimal for work surfaces between 37" and 43" high. Stool is available in size B.

Tilt options include a tilt limiter that allows the user to select the tilt range to limit the amount of recline; a tilt limiter and seat angle that allows the user to select the tilt range and a horizontal or 5° forward seat angle; or a standard tilt.

Back-support options include adjustable PostureFit® SL, an adjustable lumbar support, and PostureFit. The adjustable PostureFit SL support provides a custom fit in sacral and lumbar regions of the spine that helps achieve healthier posture and improved lower back comfort. The user can fine tune the level of support with an adjustable knob on the PostureFit SL.

Arm choices include a fixed, nonadjustable option; a heightadjustable option that moves the arms 4" vertically; a heightadjustable plus pivot option that moves the arms 4" vertically and pivots the armpads 15° outward and $17^{1/2}$ ° inward; and a fully adjustable option that also allows the armpads to move forward and back.

Aeron is now offered in a range of 4 tightly curated, holistic material expressions: onyx, graphite, carbon, and mineral. Onyx is a unified expression of luxury and strength. Graphite refines Aeron's original color scheme for a crisp, sculptural appearance. Carbon blurs light and dark, and warm and cool, to harmonize with a variety of environments. Mineral illuminates Aeron's finer points to offer a lightness that borders on translucence.

Notes

For information on casters and glides, see Casters and Glides in Appendices.

Customer's Own Leather (COL) can be applied to armpads; requires 4 square feet. See Order Information in Appendices.

As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

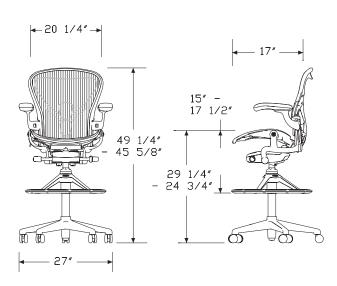

MicrobeCare[™] is an antimicrobial coating that can be applied to a wide variety of Herman Miller Group surfaces to protect products from mold, mildew, algae, and bacteria that cause deterioration, discoloration, odors, and stains.

MicrobeCare[™] is a US Environmental Protection Agency (EPA) registered nonpublic health antimicrobial.

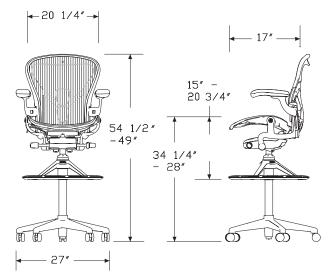

MicrobeCare™ is applied to the major touchpoints, including the seat, backrest, arms, armrests, frame and adjustment controls.

Armpad Leather For fixed arms (P), height-adjustable arms (H), height-adjustable plus pivot arms (A), or fully adjustable arms (D) with leather armpads (F) Price Category 7 A +\$0 Price Category 9 +\$90

Product Information

Description

These arms can be retrofitted to a new Aeron[®] work chair. Arm choices include a height adjustable option that moves the arms 4" vertically, a height adjustable plus pivot option that moves the arms 4" vertically and pivots the armpads 16° outward and 16° inward, and a fully adjustable option that moves the armpads forward and back $2^{1}/_{2}$ ". Arm components are preassembled.

Graphite (G1) finish is recommended for use with graphite (G1) frame finish.

Carbon (CRB) finish is recommended for use with carbon (CRB) frame finish.

Mineral (VPR) finish is recommended for use with mineral (VPR) frame finish.

Onyx Ultra Matte (BLX) finish is recommended for use with black (BK) frame finish.

Lumbar Kit

Product Information

Description

This lumbar support fits into the back of a new Aeron[®] work chair to further support the back. The support can be adjusted up and down while providing support to the lumbar region of the spine.

Graphite (G1) finish is recommended for use with the following frame finishes:

• Graphite (G1)

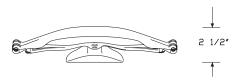

• Graphite with graphite applique (ZB)

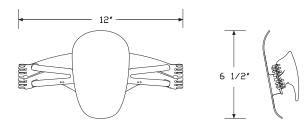

Carbon (CRB) finish is recommended for use with carbon (CRB) frame finish.

Mineral (VPR) finish is recommended for use with mineral (VPR) frame finish.

Black (BK) finish is recommended for use with black (BK) frame finish.

Product Information

Description

These Aeron[®] armpads are I-skin covered urethane foam molded over a nylon insert. They come in a choice of 3 colors. Armpads can be retrofitted to a new Aeron work chair. Sold in pairs.

Notes

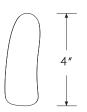

Black armpads are recommended for Aeron chairs with a graphite (G1) or black (BK) frame.

- Dark carbon armpads are recommended for Aeron chairs with a
- carbon (CRB) frame. Dark mineral armpads are recommended for Aeron chairs with a

mineral (VPR) frame.

Customer's Own Leather (COL) requires 4 square feet. See Order Information in Appendices.

PostureFit® Support

Product Information

Description

This PostureFit[®] support fits on the back of an A, B, or C size new Aeron[®] work chair. It provides support in the lower back area, or sacrum, that helps achieve healthier posture and improves lower back comfort.

Graphite (G1) finish is recommended for use with the following frame finishes:

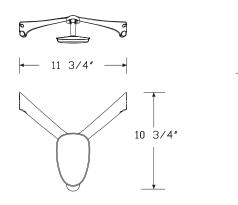

- Graphite (G1)
- Graphite with graphite applique (ZB)

Carbon (CRB) finish is recommended for use with carbon (CRB) frame finish.

Mineral (VPR) finish is recommended for use with mineral (VPR) frame finish.

Black (BK) finish is recommended for use with black (BK) frame finish.

New Aeron® Accessories

PostureFit® SL

AER906

Product Information

Description

This adjustable PostureFit® SL support fits on the back of an A, B, or C size new Aeron® work chair. It provides custom, adjustable support in the lower back area, or sacrum, that helps achieve healthier posture and improves lower back comfort. Adjustable PostureFit SL also provides support in the lumbar region of the spine. User can adjust the level of support by dialing the support in or out. Adjustable PostureFit SL ships with the support and includes a new backrest. This requires an installer to modify the existing chair.

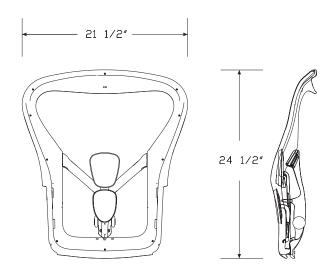

Graphite (G1) finish is recommended for use with graphite (G1) frame finish.

Carbon (CRB) finish is recommended for use with carbon (CRB) frame finish.

Mineral (VPR) finish is recommended for use with mineral (VPR) frame finish.

Black (BK) finish is recommended for use with black (BK) frame finish.

Frame Applique

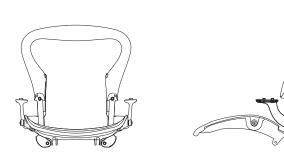

Product Information

Description

This frame applique is applied to a new Aeron® work chair's seat, back, and arms to minimize the effect of contact between the chair and a wood-edge surface. The seat and back appliques attach with the chair's existing screws. Coated arm yokes replace existing arm yokes. Arm components are preassembled. The arm yokes use the chair's existing armpads.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon A will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an A are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Meridian®

Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 ext 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

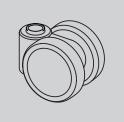

HermanMiller

This reference helps people select A-, B-, or C-size chairs when the three sizes are not available for actual test sitting. Height and weight are key indicators of suitable chair-size choice. Since the B-size chair is designed to fit a broad range of people, Herman Miller recommends it for users who fall in the A/B or B/C category. This chart applies to New Aeron chairs with the extended-height-range pneumatic height-adjustment cylinder. To determine which chair size is best, find the point of intersection for your height and weight. New Aeron B-, and C-size chairs are tested and warranted for use by persons 350 pounds and under. A-size chairs are tested and warranted for use by persons 300 pounds and under.

HermanMiller

Fire Retardancy — Seating

Fire Retardancy

Fire-retardant chairs manufactured in approved fabrics (FR) meet California TB 133 requirements.

All foam and textiles on HermanMiller seating products comply with California TB 117-2013.

HermanMiller

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Customer's Own Material/Customer's Own Leather

Program Overview

The Customer's Own Material (COM) and Customer's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at: (616) 654 3400 (866) 854 3048 ext 6543400

Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Textile Approval

- 1. Select a COM textile and a Herman Miller product.
- If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
- 3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

 Refer to the specific products to determine the yardage required for COM/COL textiles.
 Note: Additional yardage may be needed due to the unique

characteristics of a textile.

- Obtain the COM ID# in Omni. If the color you are ordering does not have a COM ID# assigned, click "Create ID".
- 3. Enter your order on Order Manager in Omni.
- Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
- 5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at

(616) 654 3400 or (866) 854 3048 ext 6543400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Customer's Own Material/Customer's Own Leather Order Information — Seating continued

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at: (616) 654 3400 (866) 854 3048 ext 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at a total product cost based on the supplier's price published at the time of the order.

Textile Approval

- 1. Select a COM textile and a Herman Miller product.
- If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
- 3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with Supplier Connection COM

- 1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
- 2. Enter your order on Order Manager in Omni.
- 3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.
