THANK YOU

From the Board and Staff of North Shore Area Partners-a sincere THANK YOU to all who helped make our Bay Days Cookout, Bingo, and Silent Bidding & Ticket Auction Fundraisers such a stupendous success!

An Evening in the Garden

By Kit Sitter Leader, Lake County Extension Master Gardeners

The Lake County Extension Master gardeners are hosting an "Evening in the Garden" to introduce the public to the new natives/pollinator garden. The event will be on Wednesday, July 20 from 6-9 p.m. at the Community Center located at 417 South Ave, Two Harbors.

The evening begins with a presentation by Dan Schutte of Shoreview Natives, speaking on native plants appropriate for northern gardens. Attendees will also learn about the installation of the new garden and what's in store for the future sensory therapeutic portion of the garden.

Representatives with additional horticulture and wellness related information will be available during the evening. Reservations may be made by calling Lake County Extension at 218-834-8469 or emailing mselhors@umn.edu. This event takes the place of the summer Mystery Garden Tour.

Cook County Bridge Construction Projects Notification

Grand Marais, MN, July 11, 2022-The Cook County Highway department has updates on two bridge construction projects.

UT 46 Cross River Bridge Project The existing timber bridge located on UT 46/ N Gunflint Lake Road over Cross River is structurally deficient and the poorest rated bridge in the County. It is the ninth poorest rated bridge on the entire state of Minnesota's local bridge system.

Redstone Construction was the low bidder at \$1.4 million.

Per Cook County Engineer Robert Hass, "A temporary bypass will be constructed to maintain traffic flow across the bridge. The existing bridge will then be removed and the new one built exactly in its place."

Construction began on July 5, 2022 and is expected to finish by Fall of 2022.

UT 71 Carlson Creek Bridge Project The existing culvert located at UT 71/Moose Valley Road over Carlson Creek is structurally deficient and the second poorest rated bridge in the County. It is the thirteenth poorest rated bridge on the entire state of Minnesota's local bridge system.

tem consists of every bridge that is not on the trunk highway system. A temporary bypass will be constructed to maintain traffic flow across the bridge. The existing bridge will then be removed and the new one built exactly in its place.

Ulland Brothers was the low bidder at \$440,000.

"The structurally deficient steel culverts will be replaced with two concrete box culverts," said Robert Hass, Cook County Engineer. "The culverts span a distance larger than 10-feet and are therefore considered a bridge and are a part of our bridge inventory list."

Construction began on July 11, 2022 and is expected to finish by mid-August of 2022.

Funding for the bridges comes from the Town Bridge account from the state. This is possible because the roads were redesignated as an Un-organized Territory (UT) road. For both projects, this new funding source helps offset costs that would have otherwise required funding from local sources.

Stay tuned for more updates on Cook County construction season. For additional information, please call the Cook County Highway Department, 218-387-3014 or visit: https://tinyurl.com/44ammkzc.
