

## Bridges of St. Paul

St. Paul, Mn has 9 bridges that cross the Mississippi River. One day Mr. Horton decided that he wanted to see if he could cross all 9 bridges in one day. The challenge would be that he wanted to make sure that he crossed the bridges only once. Since he lives in St. Paul, it would make sense to start in St. Paul and finish in St. Paul. Which route can he take to make this challenge work?

In the First Picture you can see St. Paul in Blue. Minneapolis in Black, and the cities of West St. Paul and Mendota Heights in Red. The Bridges are in Green.

In the Second Picture you can see the Bridges of St. Paul labeled by name.
