

New Business

1. Letter to pet owners: deferred
2. Oceanic (Spectrum) vs. Hawaiiintelcom (for TV, computers, telephones): Both are offering a special bundling program. PH2 resident said the Hawaiiintelcom signal does not reach the back of the valley. Bobbie will research completely and inform Michael.
3. Residents would like a new toaster.
4. Welcoming Committee Report: Six new residents will be contacted by the committee. The problem the Committee is having is that we are not informed when the new residents are moving in, so we cannot perform our function of meeting them on their first day in the dining room. This is their most crucial time to be made welcome and allay their reluctance to enter the dining room alone.
5. Reporting a resident who is possibly injured in their apartment: The only time the "Button" should be off your person is at night when you are charging the battery. Three other ways fellow residents can help each other: (1) set up a buddy system with a friend (phone call each day); (2) If your regular table mate does not show up for a meal or two, and they don't respond to a knock on their door, contact the office; (3) if a flyer that has been placed on our doors, and you notice after a few days that one has not be removed, contact the front desk for them to check.
6. Employees Appreciation Fund report: Bobbie reported that \$1,685 was collected in May, bringing the total to \$12,725. If you talk with a new resident, be sure and mention the Fund to them, as Management does not include this in the New Resident Packet.
