

Comment Cards from Workshops

August 27th and August 29th

Comment #1

- Please keep the general population of Redlands a part of this process.
- Have signs/street signs that set up bike & walking paths that have pre-set distances

Comment #2

- It is very important to start on time and end on time. This always adds efficiency and professionalism to the workshop.

Comment #3

- Workshop is well organized. I hope the participant ideas really get into the plan.
- It is very disconcerting to be in a group of 50 +/- Redlands residents and either (zero or one) person of color is in the room. IDEAS:
 - Send survey in utility bills
 - Put survey takers out on Market Night
 - Come up with something to represent ALL VOICES!!

Comment #4

Next workshop should not be so ambitious

Comment #5

- Well organized
- Facilitators were effective
- Challenges in groups are always
 - Keeping people on subject
 - Keeping people succinct
- Facilitators did that quite well

Comment #6

- Arts and Culture should be a major bullet point

Comment #7

- Need to reach out to divers community
- Bring planning process/meetings to other neighborhoods including North Redlands area
- Arts & Culture isn't in discussion plan – its not going to be discussed. It needs to be a major [item] to be addressed
- Why is Arts & Culture Plan not a part of General Plan? This is what provide Q.O.L

Comment #8

- Why is the airport not depicted on the land use map at this workshop? Especially when transportation & land use are specific topics for discussion.

Comment #9

- “Be different” than other development and general plans that create city havoc.
- Plan for the community as a whole – not for \$\$\$ and special interests.

Comment #10

- Overwhelmingly, we all want to preserves the quality of life we enjoy in Redlands. Protect the family-oriented, small town atmosphere, recognize that growth is limited and this is okay.
- Encourage small business that supports current quality of life and encourage job opportunities.
- Massive transit system “the train” & high density residential do not support the vision we have for Redlands.

Comment #11

- There really should have been a transportation category on the Steering Committee. Transportation will be a huge topic to grapple with in this General Plan.
- It's important to make sure that the rail project is planned by SNADBAG to actually suit the City's needs. It's also important to provide safer bike infrastructure & traffic calming.

Comment #12

- Please get out into communities that may not readily participate.
 - North Redlands
 - Mentone
 - Spanish speakers & other languages
 - Lower socio-economics
- Link to schools – they have Facebook and Twitter. Maybe through water bill, fliers @ cashier's counters

Comment #13

- Good Workshop!
- I hope our ideas will be listened to.
- Thank you for holding this on the weekend.

Comment #14

- I am surprised not to see the arts listed as a priority area for planning. The arts are so much a part of the cultural heritage of our community – and have helped make Redlands the very special place that it is.
- It is my hope that the arts take a high priority in our planning process.
