Cleveland, Ohio ([PRWEB](#)) February 08, 2015 -- Kathryn Joy Foster Music Ministries joined by Kaleidisc International, KeyNote Music Service and Read All Over Publishing has brought independent creative works to the forefront of the arts and entertainment industry since 2003. Collectively, they host a number of platforms for artists' gifts to thrive. This pattern can be seen with the release of the debut and sophomore singles Hiding Place and Always Room for One More respectively, and the 2014 CD and mp3 debut album, Life in the Blood. Now Everlasting Love mp3 Single recorded and performed by Kathryn Joy Foster follows suit; it marks the team's fourth music recording release.

Kathryn Joy Foster serves as the executive producer, producer, musician, songwriter/singer for Everlasting Love mp3 Single. "Rhythm and rhyme often make songs memorable. Moreover, our platform is driven by the message behind each masterpiece. In this case, the crossover appeal of Everlasting Love answers the universal call to be embraced and never dropped," says Foster. Envisioning Everlasting Love as a classic, it was recently added to the list of twenty originals performed in Promises, the stage-tested musical theater. Foster reflects on the completeness of Promises. "Timeless affection satisfies a sense of belonging. Adding Everlasting Love is a fitting climax; it fully characterizes one of The Holy Bible's greatest love stories taken from the Book of Ruth."
