'Peace for us means the destruction of Israel. We are preparing for an all-out war, a war which will last for generations.' -Yasser Arafat

The purpose of this study is to show that certain times related to the particular phases of the Moon have influenced military strikes in the Middle East. In particular, precise Moon phases have correlated to a direct timing as to when Israel struck her Muslim enemy's nuclear facilities in the past. If the pattern is reliable, then one can conclude that if Israel is likewise to have some sort of strike on Iran's nuclear facilities; it could likely take place in like manner -given the pattern of Moon phases in which Israel has struck in the past. There will be several points and examples from prior military campaigns presented that can lend credence to the possible timing of the next strike by Israel, which this study strongly suggests will most likely lead to the coming Jewish-Muslim war of Psalm 83.

In fact, it has already started. This war will be 1) regional 2) religious and 3) nuclear by some estimates and evidence presented in this segment of the study. The theories presented will be taken from facts and research already established from Israel's recent history. The information presented will only emphasize patterns and probabilities. According to the Bible, the Israeli-Arab age old conflict will come to a head at Armageddon. The stages have now been set for an all-out regional war that will inevitably involve the exchange and/or a detonation of a nuclear device as described in the horrific imagery of the Gog-Magog War of Ezekiel 38 and 39. It is one thing for a nation to aspire to have nuclear energy as a means of an alternative source but what Israel rightly fears is that the nuclear capability of its Muslim enemies to produce weapons of mass destruction is something different. Moreover having a supposed civilized nation such as Iran boast that once it will have such a capability that it will not hesitate to eradicate Israel off the map is concerning.

It is no secret that the aim of the Muslims is to destroy Israel. What raises the stakes is that the nuclear Arab-Persian armies have put Israel on notice that they will use them to destroy Israel. Why? Because of the mere existence of Israel as their world view is fused into their religion, Islam. As Iran races to complete enough uranium to arm one of their missiles with a nuclear warhead, their clear aim has not been to produce nuclear energy to power their nation. The Israeli-Arab conflict can better be assessed and explained as a 'religious' war. At the core of the Israeli-Arab conflict is the religious question and interpretation of who has the 'birth-right?' Jacob or Esau? Isaac or Ishmael? And who is viewed as the agents of evil and good on earth. This Jewish-Muslim conflict between these 2 opposing religions is only a means to an end in the bigger scheme of things to come.

This struggle has occurred since the twins were in the womb of Rebecca. One has gone the way of Cain and the other, the way of Abel. The struggle is for the very heart and soul of a Jew. It is for which 'Christ' or Messiah will be accepted. These 2 camps within Judaism have struggled against each other for dominance and the Birth Right. As Jesus scolded and admonished the Religious Leaders of His day that had total control of the 'religion and traditions of men', Christ told them that they had to chose between 2 'Fathers', between 2 Christs. This choice was either Abba Father, or Lucifer as their father. They had to choose between Jesus as the Anointed Christ or Lucifer as the Anointed Cherub 'Christ'. This battle is still raging on and those that controlled the Jewish religion then, control the religion now. In fact, Jesus foretold a day when Israel would rather accept 'him who comes in his own name' but not the SON of GOD that was sent to redeem them.

According to the Bible, it was Esau who despised his Birth Right and sold it to Jacob. Out of spite, Esau married Canaanite wives and has opposed Jacob's descendants ever since. His descendants became the Edomite, Moabites, etc., that came to oppose the Hebrews from having access through the Wilderness when Moses was leading them to the Promised Land. They stood to curse the Israelites by hiring Balaam. Another descendant of Esau, Haman would later conspire to eradicate all of the Jews of the Persian Empire during the time of Esther and Mordecai in Susa. Such has been the case also with the Nazi regime as the highest offices of the Party were Jewish, descendants of Esau that perpetrated the 'Final Solution' against the Jews to murder every one of them off the face of not only Europe but the world if they had their Satanic way.

This coming war between the Jews and the Muslims will only be a process to yet stage another level of consolidation of power for the Luciferian agents that are in control of this present evil world. The ultimate showdown will be between the 2 Christs, technically that of Jesus Christ and the Anointed Cherub, Lucifer at the Battle of Armageddon. According to the Bible, it is really a no contest. Jesus Christ, the true and only Christ, the Anointed One will destroy the armies of the AntiChrist at Armageddon by His mere presence and splendor of this Word that formed Creation out of nothing.

A Religious War

Since 1948, the modern and sovereign State of Israel has had to fight for its survival. It has also been a victim of a surprise strike on the Jewish holiest day –Yom Kippur in 1973. To have Israel 'exist' or even co-exist is anathema to the radical Islamist. Why? Because to have Israel 're-birthed' after the so called 'last revelation of god' to the false prophet Mohammed invalidates the Koran and Islamic religion in that YHWH is not done with Israel and in fact thus YHVH will honor His Word to preserve the Birth Right given to Jacob and his descendants, not to Esau's whom now most are Muslim by religion and Arab by race. As to the End Game plan of the Luciferians against Israel, the Muslims have been allowed presently to take over country by country to insure an encirclement of Israel and go in for the kill -at some appropriate time with subsequent invasions of Israel by the Muslims.

- 1) *The Inner-Ring of Muslim countries speculated to by the Psalm 83 War.*
- 2) *The Outer-Ring of Muslim nations led by Russia speculated to be the Gog-Magog War of Ezekiel 38-39. Israel will have no other choice but to use its 'Samson Option.'*

The Samson Option

In the Biblical story in Judges 13, Samson brings down the enemy Philistine temple by pushing the supporting pillars apart that he was tied to as a spectacle. He not only killed all the Philistines in it, but also himself by this act. By 2002 it was estimated that Israel has anywhere between 75 - 200 thermonuclear weapons in its nuclear arsenal. These can be launched from land, sea and air. This gives Israel a 2nd strike option with its submarine in deep water even if much of the country is destroyed. This is called the Sampson Option. This Samson Option is a term used to describe Israel's alleged deterrence strategy and capability.

It is a doctrine of massive retaliation with nuclear weapons as a 'last resort' against nations whose military attacks threaten Israel's existence. Much like Mutual Assured Destruction (MAD) with the US vs. USSR during the Cold War, Israel would exercise this option if Israel would be seen as about to be destroyed by its Muslim enemies. It should be noted that Israel is not part of the international body of nations that are accountable to the UN's nuclear watch-dog group. Nor is Israel part of the Non-Proliferation Treaty that promises peaceful purposes of its nuclear energy program; mind you neither is Pakistan for that matter.

Right to the Land

At the core of this religious conflict between the descendants of Jacob and Esau, Isaac and Ishmael is whether Israel has the Biblical legal claim and right to the Land. Even if one is not accepting of numerous Biblical Covenants made to Jacob and Isaac by YHVH regarding the Abrahamic Covenant and other prophecies that state that Israel in the Last Days would be re-gathered to their former borders, one can observe that the nations that also existed then in ancient times surrounding Israel, also now exist as well.

It was not until World War 2 that all these Arab-Persian nations came out of 'Mandates' as did Israel....Syria, Lebanon from the French, Egypt, Iraq and Jordan from the British, Israel from UN Partition that coincidentally the Palestinians rejected and declared war on Israel. The entire nation of Jordan was to have been the Palestinian portion of the Partition Plan but the British double-crossed the UN and the Jews by establishing a Hashemite Kingdom instead. How Obama and the UN are once again seeking to divide the portion set aside for the Jews that included Judah and Samaria, the ancient Kingdoms of Israel and carve out a State for the Arabs called Palestine.

'The Palestinian people does not exist. The creation of a Palestinian state is only a means for continuing our struggle against the state of Israel. For our Arab unity. In reality today there is no difference between Jordanians, Palestinians, Syrians and Lebanese. Only for political and tactical reasons do we speak today about the existence of Palestinian people, since Arab national interest demand that we posit the existence of a distinct 'Palestinian people' to oppose Zionism'. -Zahir Muhse'in

The 'Right' Religion?

In the eschatological view of Islam, Israel has to be subjected and eventually destroyed to give Islam sustained credibility and legitimacy. The mere fact that the Hebrew Nation was reborn in 1948 and survived a 7-Arab army onslaught is a direct assault and affront to the tenants of Islam. If Israel is to be the 'head of the nations' once more, in the not too distant future, then it is to say that Islam is not the true successor of GOD's Revelation but an imposter and usurper religion that denies the person and work of the true Messiah Jesus Christ as do the ruling religious Jews of Israel as they did in Jesus' day. According to Mohammed and the Koran, Christianity but more urgently, Judaism has to be destroyed -according to Koran because it is tied to the LORD's promise of the Land and its Title Deed. In Shi'ite theology, Israel cannot be allowed to exist indefinitely because it would mean the following if the nation of Israel is to exist.

- 1)It validate the Hebrew Bible and would negate Allah*
- 2) It would mean that the Jews do have right to the Land*
- 3) The Palestinian Covenant pertains to Isaac, Jacob, David*
- 4) Islam is not the religion of peace and tolerance*
- 5) Mohammed is not a 'prophet' of God nor the last*
- 6) Mohammed in fact is a False Prophet*
- 7) Islam is just another Anti-Christ false religion*

The notion that Islam and Judaism stem from the same 'god' is foolish logic and interpretation. Allah is never mentioned in the Bible nor is Jerusalem in the Koran for that matter. The Islamic belief-system only pays lip service to Abraham, the Prophets, King David, and even Jesus Christ etc. In essence, the core belief is that Islam is the successor of not only Judaism, but Christianity; the final Revelation and authority from 'god.' In fact Islam is the only 'religion' that is designed to negate the claims of Christianity, of Jesus Christ precisely. Jews, but especially Christians are viewed as 'heretics' and their Scriptures, the Bible as being corrupted. Currently any convert from Islam to Judaism or Christianity is under penalty of Death despite the claims of the tolerant and merciful Islamic creeds hell bent on religious dominance.

Based on 1 John 4:3, Islam denies the deity of Jesus Christ, that He did not physically die on the Cross. This in effect nullifies the saving work of the Anointed One sent by the Creator YHVH as the only means of salvation from humanity's sins. In essence, Islam is a religion systematically anti-Christ, opposing the very Gospel of the Kingdom, the Promise of the LORD and work of the Cross. Islam rejects Jesus Christ and awaits their own Messiah, the Mahdi. The Koran cannot accept that YHVH of the Bible is not done with Israel. No Muslim will ever say 'YHVH' is Great!' They despise that the Promise of the Land was give by the LORD to Abraham's descendant through Isaac and Jacob and that one day one of their descendants, Jesus Christ of the Tribe of Judah will rule the world. This makes no room for Islam in the scheme of YHVH's timetable and Millennial Kingdom that is to be set up by Jesus Christ at the end of the Battle of Armageddon.

- In the Yom Kippur War of 1973, the Arabs used the Moon phases to strategically attack Israel by air.
- In 1981, Israel destroyed nuclear facility in Iraq and Syria in 2007 during specific Moon phases.
- Israel struck the 2 enemy nuclear faculties either on a Waxing or Waning Moon phase.
- Thus the Next possible 'Strike Zone' window could be in some future Waning/Waxing Moon phase.

Waxing Gibbous Moon Phase Strikes

1) YOM KIPPUR WAR-October 6, 1973

Occurred during a Waxing Gibbous Moon Phase.

This war is known as the 1973 Arab-Israeli War and the 4th Arab-Israeli War. It was fought from between Israel and a coalition of Arab states led by Egypt and Syria. The war began with a joint surprise attack on Israel's holiest day.

2) IRAQ WAR -2 August 2, 1990:

On a Waxing Gibbous Moon Phase and Ended on Purim.

It is commonly referred to as the Gulf War I. The war was undertaken by a U.N.-authorized coalition force of 34 nations led by the United States against Iraq in response to Iraq's invasion and annexation of Kuwait.

3) IRAQ INVASION - March 19, 2003

On a Waxing Gibbous Moon Phase and Began on Purim.

It is commonly referred to as the Gulf War II. It was also known as Operation Iraqi Freedom. A combined force of nations were led by the US sought to rid Iraq of weapons of mass destruction and execute a regime change.

Waxing Crescent Moon Phase Strikes

1) IRAQ: Osirak Nuclear Reactor-June 7, 1981

Occurred during a Waxing Crescent Moon Phase.

Israeli warplanes bombed and destroyed Iraq's Osirak nuclear research facility near Baghdad. At that time, Prime Minister Menachem Begin claimed the reactor was about to go into operation and was a threat to Israel because it could produce nuclear weapons. There was considerable circumstantial evidence that Iraq indeed was developing a nuclear weapon. Interestingly, Benjamin Netanyahu now like Menachem Begin then, faces the same dilemma with Iran.

2) SYRIA: Operation Orchard- September 6, 2007

Occurred during a Waning Crescent Moon Phase.

Israeli warplanes bombed and destroyed a nuclear reactor in the Deir ez-Zor region of Syria. The site was a nuclear facility with a military purpose. An International Atomic Energy Agency (IAEA) investigation did report evidence of uranium and concluded that the site featured an undeclared nuclear reactor. According to some reports, a team of elite Israeli Shaldag special-forces had arrived at the site the day before to aid in targeting. This imminent war scenario is exactly how current events are playing out with the explosions at various Iranian nuclear facilities and/or military missile bases.

Current MOSSAD Covert Operations

1) Bid Kaneh -November 12, 2011

An explosion hit an Iranian military base near the town of Bid Kaneh outside Teheran, killing 17 members of the Iranian Revolutionary Guard Corps and Maj.-Gen. Hassan Moghaddam, chief architect of the Islamic Republic's ballistic missile program. Israel's MOSSAD is accused of orchestrating the blast.

2) Isfahan -November 28, 2011

An explosion hit Isfahan, home to several nuclear-related sites. It is said to be mostly a uranium conversion facility. It is claimed that this facility was severely damaged. The incident took place 2.5 weeks after an explosion at an Islamic Revolutionary Guard facility Bid Kaneh. It is believed that MOSSAD was involved.

The following is a comparative narrative of the armed forces of Israel and Iran. As Iran has gotten to the point that it has enriched the uranium needed to nuclearize its weapons, it has also mastered and ICBM Intercontinental Ballistic Missile system that is able to deliver a nuclear warhead not only to Israel, but now to Mecca and Europe.

Army of the Guardians of the Islamic Revolution

سپاه پاسداران انقلاب اسلامی

It is often called the Revolutionary Guards It is a branch of Iran's military, founded after the Iranian Revolution that ousted the U.S. backed Shah of Iran. The Revolutionary Guard is charged with protecting the country's Islamic system.

The Israel Defense Forces (IDF)

צבא ההגנה לישראל

It is commonly known in Israel by the Hebrew acronym Tzahal (צה"ל). It comprises all the military forces of the State of Israel. They consist of the ground forces, air force and navy. It is the sole military wing of the Israeli security forces, and has no civilian jurisdiction within Israel.

Moon Struck

In particular, precise Moon phases have given the direct timing as to when Israel struck at their enemy's nuclear facilities in the past. So have its enemies. The Yom Kippur War in 1973 began when the coalition launched a joint surprise attack on Israel. The code-named for the operation was called Badr (Arabic for "full moon"), by using Moon Phases, it determined to some extent the effectiveness of its air force striking Israeli targets due to visibility, lighting etc. If the pattern is reliable, then one can conclude that an imminent air strike by Israel is soon to take place in like manner with Iran. In fact covert ground strikes has already occurred.

Israel and Iran are in fact in a de-facto war. Israel has acknowledged it had something to do with the covert sabotage of the explosions at the Missile testing Revolutionary Guard Base outside Teheran and the Isfahan Nuclear Reactor. This window or Strike Zone does not mean it has to happen but that there is a high probability that it could or in some future date happen. If so, such a strike will likewise be dependent on a Waxing or Waning Moon Phase regardless of winter and/or visibility conditions. With the latest technologies of radar, like the Synthetic Aperture Radar (SAR), targets can be identified and taken out in any weather condition, day or night.

These Moon phase strike patterns by Israel is precisely what was done prior with the air-strikes on Iraq in 1981 and with Syria in 2007. What will likely be more probable is that the next level of an Israeli strike will be more precise and most likely be nuclear because the covert operations have not really deterred nor stopped Iran's militarization of its nuclear program. If Israel is to strike Iran's nuclear/military missile sites and based on its prior strikes in either a Waxing or Waning Moon phase would be an opportune time. It so happens to coincide with Hanukah and the Winter Solstice in some cases.

This is what the LORD says: "Sing with joy for Jacob; shout for the foremost of the nations. Make your praises heard, and say, 'LORD, save your people, the remnant of Israel.' See, I will bring them from the land of the north and gather them from the ends of the earth. Among them will be the blind and the lame, expectant mothers and women in labor; a great throng will return. They will come with weeping; they will pray as I bring them back. I will lead them beside streams of water on a level path where they will not stumble, because I am Israel's father, and Ephraim is my firstborn son".
- Jeremiah 31:7-9
