

I've hired The Mile Stones twice. The first time they played at a fundraiser I organized a couple of years ago. With the help of the band we raised \$15,000 in one night and it was the best dance party I had been to in years.

More recently, they played my mother's 80th birthday celebration and the party was a huge success! They played music that spanned almost 8 decades! From the youngest guests to the oldest, everyone loved the music and we danced all night. I can't wait to book them for my next party!
