

The Wilderness

Verse 1

After so long in captivity it felt so strange to finally be free

It's hard to see the future ahead that they would find

With Pharaoh's army closing in behind

Standing at the sea Moses raised his hand they crossed over on dry land

Chorus

With a cloud by day a pillar of fire by night he led them through the wilderness

The years rolled by like a beacon shining bright he led them through the wilderness

Verse 2

Forty years they travelled through the burning sand on their way to the promised land

God watched over them he would not let them fall with manna from the sky he fed them all

It seemed sometimes they'd never have a place to call their own Jehovah led them on the long way home

Bridge

Sometimes I feel just like Israel through this wilderness of life God has never left me on my own Jehovah leads me through the night
