

## **Chuck Morris**

Born in British Columbia and having lived and worked all over the province, I have seen so much. Years ago, I decided to record much of it with a camera. Impressed with many of the images I collected I began to frame them and hang a number of them in my offices around B.C.

That exposure and the ensuing positive comments caused me to share the finished product within the communities I was living in. Some appeared on the front cover of local newspapers, and on both BCTV (1990's) and later Global TV (to this date). British Columbia is beautiful and I decided to record it the best way I could.

Subject matter is fur and feather wildlife, old buildings, old vehicles, unique train settings, Ships, Planes, Flora, certain mountains etc. I do not photograph people. Have a look around what I am showing here, it is but a small fraction of what I have. Some are numbered and signed.
