

Johnny:

Johnny is Junie's companion. He is a 13-year-old golden dachshund. He and Junie came from the same breeder together to the rescue in Payson who asked Happy Tails to take them. Johnny is a gentle soul who is devoted to Junie. He was overweight when he came to us and has lost a few pounds, and his playful side comes out now and again. He gets along with other dogs and loves kids and is completely housebroken and uses a doggie door.

Johnny and Junie are a pair that we would like to see adopted together. They are crate trained and quite content to share a big crate at night. They are crated when her foster is gone for a while as Junie can go out the doggy door but cannot get back in due to the height off the ground.
