THE EXPERTS

On The Table specializes in finding exotic materials from around the world and hand crafting them into unique designs which enhance the way food is served today. Our one of kind creations sole purpose is to enrich the artistic culinary creations of the modern day chef. Our mission is to create a custom table top experience that will be an unforgettable encounter for food lovers from around the world.

Our team has over 40 years of experience in the design of highly functioning and eco-friendly food preparation products within the consumer home and housewares industry. We now are focusing our talents directly to the table by working with food service and hospitality customers throughout North America
