

Commissioner Dave Nelson
Douglas County Commission

Re: Blighted areas, South Shore "Revitalization"

Commissioner, those attorneys are playing you like a violin.

The Tahoe Shores Mobile Home Park was never blighted until the current owner bought it and intentionally started a campaign to drive the residents out, raise rent, destroy infrastructure – and try to pass along all utility cost and maintenance to the tenants.

Blighted?

They did it intentionally so that they could make local government and the taxpayers make them all rich.

Make Douglas County great again!
