

# **SPECIAL TEMPLETON AREA ADVISORY GROUP (TAAG) ZOOM MEETING NOTICE AND AGENDA**

**Tuesday, October 5, 2021 5:30 PM**

**This meeting of the Project Review Committee of TAAG will be held via Zoom telecommunication procedures. To join the meeting with a computer, go to [Zoom.us/join](https://zoom.us/join) and enter the NEW meeting ID: 825 7366 4982. The passcode is 12345 when you are asked to put that in. To join the Zoom meeting using a phone, either cell or land-line (audio only), Dial 669-900-6833 and enter the meeting ID 825 7366 4982#. The passcode again is 12345#.**

## **1. DRAFT ENVIRONMENTAL IMPACT REPORT (DEIR) FOR THE PROPOSED CO-LOCATED DISPATCH FACILITY PROJECT—**

This meeting is a special meeting that will only deal with this one topic. This special meeting was called because of the time limitations we have from the County regarding our input on this DEIR report. At the meeting the Project Review Committee will present their recommendations on this DEIR regarding transportation impact, lighting, drainage/flood control and visual esthetics.

The County of San Luis Obispo Department of Public Works (County) proposes to construct a Co-Located Dispatch Facility that includes the Sheriff's Office Dispatch Center (SODC) and the California Department of Forestry and Fire Protection (CalFire), and San Luis Obispo County Fire Department's Emergency Command Center (ECC). The facility would serve as the County's primary Public Safety Answering Point to provide dispatch for law enforcement, fire, and ambulance services throughout the unincorporated regions of the county, as well as within the seven incorporated communities. The proposed facility would be located at the existing San Luis Obispo County Sheriff facility at 350-358 North Main Street, Templeton, CA 93465 (project site; site) (Figure 1). The site is a County-owned parcel approximately 5 acres in size with an access drive off North Main Street. The project will be built to essential services requirements to provide uninterrupted communications for emergency services in the event of disaster or emergency. Existing facilities at the site to remain include a County sheriff building, a County Department of Agriculture building, a covered vehicle area, a stormwater basin, and the access drive and a pedestrian walkway to the parcel off North Main Street. Proposed facilities for the Co-Located Dispatch Facility include an approximately 16,000- to 20,000-square feet, two-story Essential Services Emergency Dispatch building that will include dispatching centers, staff offices, dormitory, IT server and radio communications space, secure armory, kitchen and break areas, locker rooms, exercise room, laundry, and delivery, supply, and storage areas. The facility would support between 15 and 30 personnel. The Co-Located Dispatch Facility would also

include construction of a 140-foot-high public safety radio communications tower with two-way radio antennas, microwave radio antennas, and other associated public safety related communications equipment. Antennas attached to the top of the tower could increase the total height of the structure to 160 feet

Public comments regarding the project's Draft Environmental Impact Report must be submitted to the SLO County Public Works Department by no later than October 11, 2021.
