

## **My Edward Cullen 10th Anniversary Twilight Cover**

**By Christopher William Anton Janson**

Before I even start to explain how and why I made this cover, I'd like to say that I've been a BIG fan of the TWILIGHT books and movies ever since they came out.

So here's how I designed that Edward Cullen 10th anniversary TWILIGHT cover.

I started by searching the internet for pictures of Edward from the first TWILIGHT movie in the TWILIGHT SAGA. Once I found one that I could use for my cachet, I looked for the book covers, both the original cover and the 10th anniversary cover.

After finding them, I began my cachet by placing the original Twilight cover on the left hand side so that it would be part of the background behind Edward. Then I put the life and death cover on the right hand side.

Next, I positioned Edward Cullen in front of the book covers. After that, I used the lettering tool to type the words "twilight the 10th anniversary". Then, using the gradient tool, I colored those words in green and red to match the apples on the book covers. After that, I moved "twilight" to the right of Edward's head, and "the 10th anniversary" to the bottom of the cachet.

Once I finished creating the design, I printed my FANTASTIC looking Edward Cullen 10th anniversary TWILIGHT cachet on envelopes. Once the printing was done, I put stamps on the envelopes, addressed them to myself, and put them in the mail.

Once my Edward Cullen 10th anniversary TWILIGHT covers came back, I examined them to determine which one had the best cancel. And that is the cover that you see here.
