

# THE VICTORY

---

Those who are handicapped with a mental illness will learn how to build their lives and control the effects of their illnesses so that they can be accepted rather than rejected.

The Lord will be glorified because His children are being cared for and blessed rather than being neglected.

Participants in this ministry will be amazed by seeing the dramatic changes the Lord makes in the lives of those to whom we minister!

Oak Hills, CA 92344

## THE NEED

---

Studies show that about 1 out of 100 people in the world have some sort of mental illness. There are many types, causes and effects of mental illnesses.

Some of the effects of mental illness include, delusions, hallucinations, agitation, lack of drive or initiative, emotional unresponsiveness, disorganized thinking, impulsiveness, rejection by family and friends

**Many of these effects are so troublesome to the patient that he/she is lead to substance abuse, homelessness, and even criminal acts.**

Our government is severely neglecting those who have mental illnesses. There are many mentally ill people in our jails. Since they are "different", they are easy prey for other inmates to abuse in abominable ways. Since jails and courts don't really have a procedure for those who are mentally ill, they may end up serving more time than otherwise effective.

Many times what happens is that they get sentenced to a mental facility where they get medicine and

treatment for a short time. After that the mental facility releases him/her. Without guidance, he/she ends up right back where he/she started and a vicious cycle continues.

## THE VISION

---

The vision is a community (actually many communities) where mentally ill people can be comfortable and confident living, working, learning, playing and growing. This community will include specific amenities such as: an apartment complex, a school, a church, a work place for various careers, a library, a convenience store, a gymnasium for sporting events, a park, a medical clinic, etc. With these facilities and amenities, those who live here can learn to build a lifestyle much like that which is common in our country but in a non-threatening environment. This community will be so beautiful (in more ways than one) that some of the features, such as the church, may be open to public use on certain days. The Ranch may also provide other amenities to the general public, such as a motor-cross track or wedding planning

Inspiration Ranch will be built and operated by volunteers, professionals and even the clients themselves. **The focus will be on encouraging those who are mentally ill so that they can finally feel peaceable and significant.**

## THE CALLING

---

*"The harvest is plentiful, but the laborers are few".*

**We aim to serve God by:**

- Providing a loving environment for those with mental illnesses;
- Showing them that they can finally live a peaceable lifestyle with relief from the symptoms of their illness;
- Showing them that they are important.

If you believed that you are called by God to serve with us in this much needed organization, contact our office to see about joining our family. Then let us celebrate His amazing love as we watch Him change their lives (and ours) for the furtherance of His kingdom.
