Hannah steps onto the stage.... only to collapse moments later. Countless medical tests all point to one underlying factor: Hannah's difficult birth.

The doctor's diagnosis is nothing compared to her parents' revelation: Hannah was adopted – but there's much more she wasn't prepared to learn.

Bewildered, angered, and confused, Hannah embarks on an incredible journey with Jason, her oldest friend. She searches to discover her hidden past, locate her birth mother, and find hope for her unknown future.

USCCB rating: The film contains mature subject matter and potentially disturbing references. The Catholic News Service classification is A-II -- adults and adolescents.
