

Proper Face Paint and Tattoo Removal Instructions

Face Paint Removal

Step 1: Use a wet paper towel or baby wipe to gently wipe away as much paint as you can.

Step 2: Using a mild soap, gently work it into a lather on a soft cloth.

Step 3: Gently massage the soap onto the area where paint was applied.

Step 4: Rinse with warm water.

Step 5: Repeat steps if necessary.

Glitter and Metallic Tattoos

Step 1: Using rubbing alcohol, any safe oils (such as coconut oil, olive oil, or baby oil), or an oil based lotion, soak the tattoo for 5 – 10 minutes.

Step 2: Gently rub the tattoo with a soft cloth.

Step 3: Repeat steps if necessary.

Airbrush Tattoos

Step 1: Apply rubbing alcohol to a cotton pad, cotton bud, or paper towel.

Step 2: Gently massage the area where paint was applied.

Step 3: Repeat steps if necessary.
