MESSAGE FROM THE PRESIDENT
Lisa L. Baumbach-Reardon

It is hard to believe that we have almost come to the end of our 2004—2005 meeting and activities schedule! But there are still ample opportunities to finish up the year with some activities—our Chapter Bird-a-thon and activity at Flamingo Gardens (Saturday, April 9, 2005), our Chapter Weekend Field Trip to Ft. De Soto (April 30/May 1, 2005), Earth Day activities in Broward County (Saturday, April 16, 2005), and our End-of-the-Year Bird Walk and Picnic to be held at Fern Forest on Saturday, May 21, 2005. Further information on these events is included in this newsletter.

Other important information includes the recent land sale and land donation from BCAS former president Bill Conway, with proceeds starting a much needed endowment for our chapter, important local and state conservation priorities, and the slate of 2005—2006 Chapter Officers, which will be voted on at the May 21st picnic. There are still two at-large seats open for the Board of Directors. I strongly encourage you to think about filling one of these seats—we have an exciting and challenging 2005—2006 year ahead, with several new Board members! If you are interested in serving on the Board, please contact Fred Griffin (954-587-8008) or myself (954-316-9332).

Another important item is that several Board members just returned from the first ever Audubon Academy, held in St. Petersburg the weekend of March 17th. There were more than 80 Audubon chapter leaders there from throughout the state, sharing in many leadership workshops. For more information on the Audubon Academy, please see this issue of the newsletter.

Last, but not least, this is my last newsletter message as Chapter President. I have feelings of both happiness for what we have accomplished this past year and sadness of ending the year as President. It has been an honor to serve in this position. I will return next year on the BCAS Board as Conservation Chair, a leadership position near and dear to my heart. I want to end by thanking several Board members who are retiring—Jacqui Sulek and Cheryl Verona—both moving to different regions of North Florida, and last—but not least—Fred Griffin, who we are letting "retire" from the Board after many, many years of service.

A big thank you to each officer for all their service!

For those of you going away over the summer, please check the BCAS website for updates, including our 2005—2006 activities schedule. Hope to see you in April or May at one of our events!

Ft. De Soto and Gulf Coast Birding

April 29, 30, May 1, 2005

Ft. De Soto in St. Petersburg is one of the hottest spots for Spring migration—as many warblers as the Dry Tortugas. Plus, you might see Blue Grosbeak, Scarlet Tanager—or rare shorebirds like Long-billed Curlew and Whimbrel!!

Enjoy the drive! A $30 upgrade includes extra birding on the way there and back at places like Cecil Webb, Sawgrass Lake, Weedon Island, Oscar Scherer and Myakka River State Parks!

Led by expert birder Paddy Cunningham:

CONSERVATION NEWS: STATE, REGIONAL, & FEDERAL NEWS OF INTEREST

By Lisa Baumbach-Reardon
BCAS President and Conservation Chair

It’s April—Spring is in the Air—and this month we celebrate Earth Day! Earth Day is Friday, April 22, 2005—please make sure that you do something meaningful for conservation that day! Think about recycling that day, or about conserving water, or planting less water-consuming native plants in your yard—or just go out and enjoy our beautiful parks! There are park clean-up and eco-action days all over Broward County held on Saturday, April 16, 2005—call the park nearest you, or Broward County Parks and Recreation, for more information (954-357-8100). Just make sure to do something that day involving yourself or others that makes you or others appreciate our Earth!

April is also time to pay close attention again to what is happening at the state and federal levels regarding funding for Everglades restoration, and many important environmentally-related bills facing the Florida legislature. Eric Draper, working with Dr. Paul Gray of Draper, working with Dr. Paul Gray of the National Audubon Society see it as a great model for other state programs. We are planning to have a day of further Academy sessions during our Audubon Assembly in October ** and we’ll work with the Chapters Committee to plan that. We have started exploring how to create an electronic connection for all the Chapters. Thanks and congratulations to Joyce and all the committee members, and all who took the time to present at the Academy.

** The 2005 State Audubon Assembly will be Oct. 21-22, 2005 at the Holiday Inn Cocoa Beach Resort.

Remember Earth Day—
Friday, April 22, 2005!
In 1986, Mr. William Conway donated a 1.67 acre parcel of land in Coconut Creek to Broward County Audubon Society to be kept as preservation land. This land has a small creek running through it and is populated by as many as 100 old growth slash pine and cypress trees which provide habitat for birds, small mammals and reptiles. The land is contiguous with the Winston Park Preserve managed by the City of Coconut Creek. It has become overrun with exotic plants, especially Brazilian pepper, which presents a contamination problem for the adjacent preserve.

In 2000, Broward County passed the Safe Parks and Preservation Land Bond Program and raised $400 million to enhance the County’s parks and to purchase preservation land. The Board of Broward Audubon decided to offer to sell the land to the County. Brian Rosen of the County’s Land Preservation Section was extremely receptive to the idea. It was decided that the land would be purchased by the County and put under the management of the City of Coconut Creek and made a part of the Winston Park Preserve. Steve Nash, Coconut Creek’s City Forester, was delighted to get the opportunity to take the land under his control and rid it of the Brazilian pepper.

This transaction would be a win-win-win for all:

◊ Mr. Conway’s wish to preserve the land in perpetuity would be assured.
◊ The land will be a fine addition to Winston Park Preserve.
◊ Broward County Audubon Society would receive significant additional funds to help cover the cost of its conservation and educational programs.

The sale was completed on February 17, 2005. The proceeds will be invested and the income will be used to help underwrite Broward Audubon’s annual expenses.

At its March 17, 2005 meeting, Broward Audubon expressed its appreciation to Mr. Conway, presenting him with a first edition John J. Audubon print of the Least Bittern with an inscribed plaque. Saralyn Nemser, Esq., a real estate attorney who generously donated her services to complete the transaction, was also honored and presented with Audubon’s famous book Birds of North America. We also appreciate Barry Heimlich, who used his vast experience to negotiate the sale.

BROWARD HOT SPOTS

By Paddy Cunningham-Pascatore, Expert Birder
West Lake-Anne Kolb Nature Center

Although a local birder once exclaimed that West Lake Park in Hollywood was the park without birds, you may be lucky to pick up some interesting sightings at certain times of the year. On the south side of Sheridan Street, you can find in Tarpon Lake wintering Lesser Scaups, Blue-winged Teals and an occasional Red-breasted Merganser. One of the only shorebird areas in Broward is on the west side of the lake along its rocky beach where peeps and plovers can be located. Peregrine Falcons are often seen flying over the park and roosting in nearby condos. On the south trail, a Kentucky Warbler has been spotted along the mangrove channel and in the spring nesting Killdeer and Black-necked Stilts in the rocks. On the north Anne Kolb side along the mud flat trail at low tide, wading and shorebirds can be found, along with a past King Rail and Pinted Buntings. A chance to see Roseate Spoonbills flying overhead alone makes West Lake worth visiting!!

BIRDATHON 2005
SATURDAY, APRIL 9, 2005

BIRDATHON 2005, Saturday, April 9th!!
Birdbathon is an exciting annual event with the objective of counting as many species as possible and having friends and associates pledge a per species donation!! Average count may be approximately 35.

On this date, two teams will compete for the title of BBB (Broward’s Best Birders). We need your help on one of the teams to count as many birds as possible and to collect some dollars to help BCAS.

Here is the deal: Gloria Cashin will lead the Easterlin Park group and Ken Burgener will lead the Snyder Park team. Each team will spend the morning counting species seen. Then they will meet at Flamingo Gardens for a lunch and a tour of the Gardens. Meet at 8 am at each park, bird for several hours and then finish at Flamingo Gardens.

This will be a good opportunity to see the spring migrants and have some good birders around to help ID them!!

How to participate: Contact your friends or associates and ask them to sponsor you by giving a pledge to pay so much per species seen, say $.25 to $1.00 per. You can get a sponsor sheet by contacting Fred Griffin and he will email one.

By helping out in Birdathon 2005, you will help BCAS in its conservation work, and you will have fun doing so!!

Contact Fred Griffin at aeg1933@aol.com or 954-587-8008 by April 6th. If participating, your admission to the Gardens and the Picnic is a sponsor sheet with pledges. We need your help so please contact us at above email or number!!
