

Description of Program

Program Description

Due to the covid-19 virus and changes in youth sports rules and regulations, No Limits Volleyball will be changing their program for the time being. We will no longer be offering multiple levels of play. All athletes will be regional level athletes. It is our goal to still run a total of 4 months for the season, September through December, ending before the holidays. Payment for tuition will now be accepted only on a month by month basis with the understanding that anything could happen to the season at any time. Athletes will have a minimum of one scheduled practice a week and a possibility of a scrimmage with other NLV sanctioned teams on Sundays. Teams will still be formed for training purposes even though there will not be "tournaments". We have moved the season in order to allow for student athletes to participate in both club volleyball and high school volleyball. If anything should happen to the high school volleyball season, NLV administration will meet and discuss the possibility of extending the season and competing in Iowa tournaments.

At NLV our mission is always to provide a safe and caring environment for your athletes to get exceptional volleyball training. Because of this, we will be adhering to all of the new state rules and regulations regarding youth sports and covid-19. First and foremost, we care about our athlete's health and the health of their families. Secondly, if we do not adhere to the guidelines then we could not provide training to these athletes who desperately want to return to the gym. As a result, all coaches, players, spectators, and officials will be required to wear a mask at all times at any No Limits practice or event. Social distancing of 6 feet between athletes when not on the floor competing and between coaches and parents will be enforced as well. If we all work together we can have a safe and successful season of volleyball training for our athletes.

Payment Schedule
