Let Experience be Your Guide

PROJECT DETAILER - HUNTINGTON BEACH, CALIFORNIA

WEBCO HR, Inc. is seeking A Project Detailer for one of our clients located in Huntington Beach, California.

SUMMARY:

We are seeking an experienced and talented Architectural Drafter to join our client's team as a Project Detailer. Candidates must have a strong background in architectural and framing detailing with an emphasis on rated deck and shaft wall construction methods, structural concepts, and multi-family type V construction related codes. This role requires a consultative and supportive personality who represents the company in support of architects, contractors, and builders.

Our detailers create quality construction, repair and product submittal and production drawings from the contract documents and the project documents which defines and details the product and related installation and building requirements. You will identify areas of concern and propose solutions with some of the country's best architects, builders, owners, and vendors.

Performance Metrics:

- Production volume and accuracy.
- Customer satisfaction.
- Product and method knowledge.
- Proficiency in order management systems and relevant software.
- Communication and business acumen.

RESPONSIBILITIES:

- Develop detailed construction submittals and manufacturing drawings for chute, compactor, and waste sorter equipment.
- Ensure compliance with rated deck and shaft wall construction methods and relevant codes.
- Collaborate with sales, marketing, purchasing, manufacturing, and vendors to ensure project success.
- Provide support and training to architects, engineers, designers, specifiers, and builders.
- Design and implement system and method improvements.
- Engage with customers to provide consultative support and ensure satisfaction.
- Utilize AutoCAD and Revit to create dynamic blocks and advanced applications.
- Maintain proficiency in order management systems including Fishbowl Order Management, Autodesk, Bluebeam, Procore, and MS Office Suite.

REQUIREMENTS:

- Minimum of 5 years of experience in architectural and framing detailing of multi-story/family type-V projects.
- You must know and will not be trained in construction methods.
- Proficiency in AutoCAD, dynamic block development, and other relevant software.

- Appropriate Autodesk certifications required.
- Strong critical thinking and problem-solving skills.
- Excellent communication skills, both internal and external, with the ability to work in a supportive team environment.
- Demonstrated ability to learn and apply new concepts quickly.
- Experience in a customer-facing role, providing consultative support.
- Knowledge of structural concepts and related codes.

COMPENSATION:

- \$60,000 - \$80,000 annually depending on experience.
- A Comprehensive benefits package including health insurance, paid vacation, paid sick leave, paid holidays, opportunities for training, professional development and education, career growth and advancement opportunities.

THE COMPANY:

Our client is a growth oriented, privately held, family owned and operated, licensed specialty contractor, service, repair and e-commerce firm located in Huntington Beach. They have been in business for over 80 years and are the leader of the chute industry in customer service and product quality. Products and services include all things related to rubbish and linen chutes. debris chutes. rubbish compactors and recycling systems. The company is multi-faceted, encompassing all areas related to permanent chutes. As a specialty contractor providing installed products to the new construction market. As a manufacturer providing complete chute and ancillary equipment nationally and internationally direct and through distributors. As a repair, service and parts company providing repairs, service (cleaning, maintenance & odor control) contracts and sales of e-Commerce parts worldwide.
