

# RAIN SERVICE

## **Rain Service Includes:**

- Emptying of pool side and pump baskets
- Skimming what can be seen off pools surface
- Balancing of water chemistry

\*Due to the rain drops the visibility beneath the pool surface makes it impossible to vacuum and brush properly.

# LIGHTNING

No Service will be provided and a credit for the week will be applied to your account. Please note: when this does occur majority of the time the cleaner will try and wait for the lightening to pass so they can provide a rain service.
