

Kiss the ground you walk on

Eco-friendly and comfortable floor technology that you will love and cherish happily ever after

The floor covering industry has developed new technologies and styling to create environmental friendly products. Two improved products are **Resilient Plank and Carpet Tile**. They are versatile and may be combined to create unique designs.

Resilient Plank advantages-

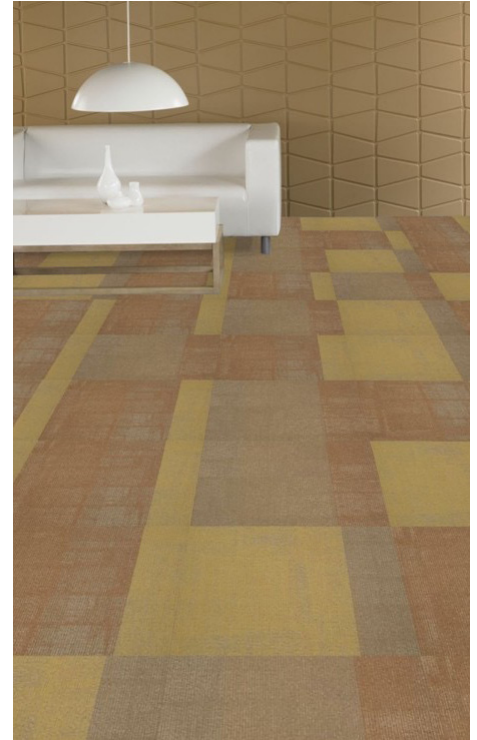

- Waterproof
- Termite proof
- Odorless
- Volatile Organic Compound (VOC) tested
- Scratch resistance
- Bacteria control
- Appearance of wood to stone
- Durable coating and fiberglass reinforced
- Fast and easy installation with strong, robust locking.

Carpet Tile advantages-

- High performance durable backing and fibers
- Versatile designs from one consistent pattern to combination for unique textures
- individual tiles may be replaced when needed.

Suggested uses for resilient plank or carpet tile are for high traffic areas include airport, healthcare facilities, offices, government facilities, schools, retail stores, etc. For residential areas, resilient has a waterproof surface making it a valuable addition to a kitchen or a bathroom. Therefore more and more customers are appreciating the combined benefits of performance, looks and value compared to other flooring options.

Both resilient plank and carpet tile are made with environmentally sustainable materials and can be recycled.

Home Flooring Plus specializes in floor preparation, installation, and after sales service of these two new floor coverings. We have many years of experience in floor covering product selection and installation, and always update our knowledge of flooring design, technologies and trends. Every floor we offer has more than surpassed our own high standards of performance and comfort. We not only care about choosing the best quality products within the client's budget, but also work with the interior designers and provide on-site supervision to make sure that the floor preparation (a key to durability) and installation is perfectly done. We believe "Only the best is good enough for you". We stand behind our products and guarantee that you will be satisfied.
