

HERALDS OF THE COMING NEW ORDER

THE SOLAR & LUNAR ECLIPSE PATTERNS

The Galactic Dark Rift Intersection of Time

by Luis B. Vega

vegapost@hotmail.com

www.PostScripts.org for online PDF illustration in chart section

The purpose of this study is to highlight several key celestial occurrences for the years 2012 and 2013. In particular, the only 2 total solar eclipses before the Tetrad of 2014-2015 will be highlighted. A Tetrad is when there are 4 consecutive total lunar eclipses occurring with no partial eclipses in the series. The 1st total solar eclipse occurred on Nov 13, 2012. The 2nd very rare Hybrid Solar Eclipse occurred on Nov 03, 2013. Both of these solar eclipses occurred in the constellation Libra. For context, the pattern of all solar and lunar eclipses since October 2012 and all of 2013 will be plotted onto a timeline. The Jewish Feast dates from December 2012 and on into 2013 will serve as reference points for context along with the frequency of the solstices and equinoxes during this time when the Sun is said to traverse the Galactic Dark Rift.

For those that follow global events based on what is going on in the 'Signs' in the Sun, Moon and Stars, the year of 2012 and 2013 will have 'Signs' or celestial occurrences in all 3 elements leading up to the Tetrad of 2014-2015. From November 2012 to the end of 2013, there were 3 Solar Eclipses, 3 Lunar Eclipses and the brightest comet in human history, C2012 S1. Perhaps something very prophetically significant could be correlating to these remaining 2 total solar eclipses. Maybe these combinations of the 'Signs' will have something to do with the anticipated New World Order that many are alluding is to 'birthed' on December 21, 2012 and/or culminating thereafter around 2015 or 2016, that is some 1260 or 42 months later. The only hypothesis that this study makes is that perhaps these 2 remaining Total Solar Eclipses leading up to the Tetrad of 2014-2015 are indeed heralding a 'New World Order' of sorts. This correlation is based on the similar pattern of an identical Hybrid solar eclipse preceding the Tetrad of 1493-1494.

That Tetrad transpired during the establishment of a 'New Order' based on the discovery of the 'New World' of the Americas by Columbus. History, at least in astrological terms will be repeating itself. This association or 'pattern' is unique and has only occurred once before during the Age of Discovery when the 'New World' was discovered and 'New Order' was made. Thus it appears that the unique Hybrid solar eclipse is directly linked to the respective Tetrads and their dates are highly relevant and significant. As to its interpretations? This remains to be seen but some speculations will be proposed. This study and chart only seeks to point out this possible association and repetition given the current celestial configurations that is to transpire by the end of the 42 month time period. The 2 total solar eclipses to occur will precede the infamous 'New Age' or 'World' time markers as researched by many claim. The 1st total solar eclipse of November 13, 2012 can be seen as heralding the 'Dawn of a New World or Age.' Many around the world are anxiously anticipating this even to coincide with the return of the 'Watchers', the Wise Ones, Cosmic Christ', etc.

Hybrid Eclipse – Tetrad sequence Pattern

The 2nd total solar eclipse will be a very rare Hybrid eclipse that perhaps is heralding the Tetrad of 2014-2015 that perhaps will be the time when the Luciferian New World Order comes to fruition. In particular, the Hybrid eclipse that occurred in the 1466, some 27 years prior to the Tetrad of 1493-1494 did coincide with the discovery of the 'New World' by Columbus in the Americas in 1492. This became a pivotal moment in human history where a 'New Order' out of the 'Old' was established from that time.

There is ample proof that the Americas were actually already discovered by other Explorers centuries before Columbus. Nonetheless, what is of importance to consider in this possible pattern correlation to a Hybrid eclipse leading up to a Tetrad is that perhaps a repeating pattern is to occur now leading up to the Tetrad of 2014-2015. If the hypothesis is valid, then one can expect that perhaps the same types of upheaval that the former 'New World Order' caused then will occur during this next Hybrid-Tetrad pattern. This coming period of time caused mass death of millions by plagues, famine, pestilences, war, genocide, etc., as it occurred after European encounter with the Americas.

- 1) *1466 Hybrid Eclipse*
 - at 0° Lat 0° Long
 - before Tetrad of 1493-1494
- 2) *2013 Hybrid Eclipse*
 - at 0° Lat 0° Long
 - before Tetrad of 2014-2015

A New Order

As the discovery of the New World of the Americas spelled death, destruction, upheaval, plagues and extinction of its indigenous peoples, it's not a far stretch of the imagination to speculate about the coming Tetrad. The coming Hybrid eclipse perhaps will be the omen of the Tribulation Period to come that might be associated with the Tetrad of 2014-2015. Perhaps all the catastrophes, wars, pestilences, famine and upheaval that the Book of Revelation speaks about will start to occur during this time of the Satanic New World Order. In another perspective, prophetically, the Tetrad of 1493-1494 did have a negative adverse effect on the Jews of the world in those days. For one, they were expelled from Spain after the Spanish Reconquista from the Muslims.

If the correlations to the celestial pattern holds, then as the 'New Order' did have negative adverse effects then, the Tetrad of 2014-2015 at will likewise have a correlation with the coming 'New World Order' will have similar prophetic negative effects upon the Jewish populations of the world and those Followers of Jesus Christ. Perhaps due to the projections of where the world is currently heading towards, the world will be in dire need of a 'New Order' and 'Messiah' for sure by 2016 due to the inevitable economic and moral collapse to come –just to name a few downward trends. This 2nd total solar eclipse that is the rare Hybrid is purely conjecture. The timeframe comparison of the Hybrid eclipse leading up to the Tetrad of 2014-2015 is not a 1 to 1 equal time or date equivalency to the Tetrad of 1493-1493. The hypotheses suggests only a reference to having it follow the same 'pattern' of sequence as the one that preceded the discovery of the 'New World' in the 1490s and the establishment of a 'New Order'.

Major Celestial Occurrences and Notable Dates

From November 2012 to November 2013

2012

Nov 06 US Elections

Nov 28 Penumbral Lunar Eclipse

Dec 08 Hanukkah

Dec 21 Mayan Calendar ends –Winter Solstice

2013

Feb 23 Purim

Mar 31 Portal opening 2013 3-31 = 13331 or 1-333-1

Mar 20 Spring Equinox

Mar 25 Passover

Mar 26 Unleavened Bread

Mar 29 First Fruits

Apr 25 Partial Lunar Eclipse

May 10 Annular Solar Eclipse

May 14 Pentecost

May 25 Penumbral Lunar Eclipse

Jun 21 Summer Solstice

Jul 14-Aug 26 Star of David Planetary astrological configuration

Sep 04 Rosh HaShana

Sep 13 Yom Kippur

Sep 18 Sukkot

Oct 18 Penumbral Lunar Eclipse

Nov 03 Very Rare Hybrid Solar Eclipse

Nov 27 Hanukkah

Nov 28 C2012 S1 Comet

Some Observations

1. Hybrid Eclipse of Nov 3, 2013 is at 0° Latitude 0° Longitude, Earth's Equator and Greenwich Line - not since 1466
2. The Comet ISON C2012 S1, magnitude of -24 will reach Perigee exactly on the eve of Hanukkah 2013
3. MAR 31, 2013 will mirror NOV 13, 2013 (3-31-13) to (11-13-13) & both the Solar Eclipses occur in Libra
4. The May 10, 2013 Annular Eclipse is symmetrically in the midst of the Nov 13, 2012 & Nov 03, 2013 Eclipses
5. The 2 Lunar Eclipses flank the May 10, 2013 Annular Eclipse symmetrically on either side by 15 days
6. Mar 31, 2013 'code' is in Golden Ratio proportions to May 10, 2013 Solar Eclipse and the Star of David alignment
7. May 10, 2013 Eclipse is in Golden Ratio proportions to Jun 22, 2013 Star of David alignment & Comet ISON
8. The Cross or 'T' planetary alignment - Star of David astro-chart occurs around Jul 22, 2013 to Aug 26, 2013
9. Easter Sunday Mar 31, 2013 correlating to the 1-333-1 code & Ascension Day is on May 9, 2013 eve of Eclipse

The 2nd Solar Eclipse of 2012

This total solar eclipse will actually involve 2 calendar dates as the eclipse passes the International Dateline from Australia. It will start on the 13th near the city of Darwin in Northern Australia. It will travel east towards the city of Cairns. As it passes north of New Zealand, it will be the 14th of November. At this point will it reach its Maximum Zenith. This eclipse is sort of a 'mirror' image of the May 20, 2012 Annular eclipse in the Northern Hemisphere that traversed much of the USA's Southwest. This 'southern' eclipse will almost totally be over the South Pacific Ocean. When the eclipse will reach its greatest 'eclipse totality', it will only be lasting for just over 4 minutes. Thereafter, the eclipse will be ending at sunset towards Chile.

The 2nd Lunar Eclipse of 2012

This lunar eclipse is called a Penumbral because the Moon only moves through the Penumbra of the Earth's shadow. This lunar eclipse will also occur in the Southern Hemisphere. It will be visible primarily from New Zealand and parts of Australia. This was the case on the morning of the 29th due to the lunar eclipse crossing the International Dateline, much like the total solar eclipse did on the 13th of November, 2012.

Definitions

Total Solar Eclipse

This phenomenon occurs when the Moon directly crosses the path of the Sun in the sky. The apparent diameter of the Moon then completely covers the Sun's disk to block out the Sun's disk and light.

Hybrid Solar Eclipse

This type of solar eclipse is one that can best be described as being in between an Annular and total solar eclipses in attributes. For one, they are extremely rare. What is further peculiar about the November 3, 2013 Hybrid solar eclipse is that it will be crossing of the Earth's Equator and the Greenwich Meridian at 0° Latitude, 0° Longitude. The last Hybrid known to have occurred at this juncture in recent history was in 1466 according to the records. This is the same Hybrid that preceded the Tetrad of 1493-1494.

Δt: 1.11 minutes
Saros: 143 (23 of 72) (-11)
Duration: 1m 39s (13) is at 12:46:28 UT at
location: 3°30.1'N (33) 11°41.5'E.

Penumbral Eclipse of Moon

This phenomenon of a Penumbral lunar eclipse occurs when the Moon passes through the Earth's Penumbra or shadow. The Penumbra may cause the surface of the Moon to have different shades of color. In some cases the effect is minimal to distinguish. For example, when a portion of the Moon is closest to the Umbra, some parts of the Moon can appear darker than the rest. Depending on the angle of the Lunar Eclipse, the Moon can be totally within the Earth's Penumbra or only portions of it.

Star of David Planetary Alignments

The Star of David is a very ancient symbol that is ascribed to the shield of King David of Israel or to the Sign of Solomon, his son. It has been argued that no such symbol was ever employed by King David. It is a geometric pattern of 2 interlocking triangles interposed with each other; one triangle points up, the other points down. Other research contends that it is a much older symbol associated with occultic lore. If the triangles are encompassed within a circle, it is the symbol used to put a 'hex' on people through black magic, for example. Astrologically, this same geometric configuration occurs in the cosmos or sky by way of the heavenly bodies being at the specific coordinates when plotting the bodies using an astrological chart. These celestial Star of David planetary configurations do occur frequently. This study suggests that like the solar and lunar eclipses, this Star of David phenomenon likewise is set or occurs in a distinctive 'pattern'.

When a Star of David alignment does occur, it will be actually a 'cross' or 'T' alignment of the Planets that one can discern in the visible sky. The actual configuration or 'symbol' of the Star of David cannot be actually seen in the Heavens. This is because the 6 points of the 2 triangles engulf the whole of the Earth's circumference using the 360 degree point of view that we have from Earth. When the Star of David Planetary alignment occurs, 3 Heavenly Bodies will always be in the Northern Hemisphere, and Heavenly Bodies will be in the Southern Hemisphere. Since 1990, there have been 12 such Star of David configurations. The 13th is to occur in mid-2013; right in between the May 10, 2013 Annular Solar Eclipse and the Hybrid Solar Eclipse of November 3, 2013.

It is rather interesting that in 2013, the 13th Star also coincided with Ophiuchus being designated the 13th Sign of the Zodiac. It is possible to consider that certain major world events in the past could have had a correlation to the Star of David configuration. This will be for another study. Of course events happen all the time but as events pertain to the USA and the Middle East, there might be a connection also into the workings of the occult to forge their evil New World Order through them. Here below is just a brief summary of the major events that occurred during the Star of David planetary alignments.

Star of David Planetary Alignments since 1990:

- 1) Aug 08, 1990
- 2) Jul 18, 1992
- 3) Jul 21, 1995
- 4) Sep 03, 1996
- 5) Oct 1, 1996
- 6) Jul 1, 1998
- 7) Sep 04, 2001
- 8) Nov 16, 2002
- 9) Jun 24, 2007
- 10) Sep 27, 2007
- 11) Aug 05, 2011
- 12) Nov 14, 2011
- 13) Jul 22, 2013

Constellation Libra

Since the 2 remaining total solar eclipses will occur in the constellation Libra, perhaps there is some prophetic significance to the meaning behind both eclipses that occur there. According to the work of E.W. Bullinger who studied the correlation between the cosmos and the Gospel, Libra speaks about '*The Redeemer's Atoning Work*'. This work was and is being and will be done through the Scales of 'Libra'. In the most ancient configurations of the Zodiac or Mazzaroth, Libra was actually an Altar. Nonetheless, Libra is the 'Sign' of where 'Sin' must be paid for.

Perhaps these solar eclipse 'Heralds' of the New World Order to come leading up to the Tetrad of 2014-2015 are signifying that this work is about to be completed. Perhaps the meaning behind the names, that is a piece of the Story of the Gospel written in the Stars, is what will be the focus leading through the Tribulation period as the LORD directly deals with the Redemption of national Israel in these Last Days. The constellation Libra has 3 sub-constellations that complement its significance. There is 1) Lupus, the Victim, 2) Crux, the Cross, and 3) Corona or the Crown.

According the Book of Revelation, this Tribulation period to come on the world will be one in which there will be a 'victimization' of the Jews and of Christ profession Christians and a 'cutting off', or slaughter of such as they deny the satanic false worship of the 'New World Order'. Thereafter, the end of the Tribulation period, Christ the True Messiah of Israel returns to deal with His enemies and bestow 'Crowns' on the Righteous. For specifics, E.W. Bullinger dissects the constellation with 3 of its lesser constellation for context and prophetic significance as follows in paraphrase:

1) CRUX

The cross where Christ was cut off, from Daniel 9:26 given the 62 weeks where messiah is cut off. Perhaps alluding to the 'cutting off' at the time of the Rapture of the Church and how the AntiChrist will likewise 'cut off' the daily sacrifices of the 3rd Temple.

2) LUPUS

The victim to be slain, from Isaiah 53:7 where the lamb is led to the slaughter. Perhaps alluding to the atrocities that will occur against Jews and Christians during the Tribulation Period and towards with those that refuse the Mark of the Beast and are beheaded for their Faith in Jesus Christ.

3) CORONA

The crown that is a special Royal Crown from Psalm 110:1 where Messiah makes His enemies His footstool. Perhaps alluding to the rewards, all inclusively given to the Saints or Overcomers that stood against the Beast by the Blood of the Lamb and not loving their lives unto death. This is also alluding to the Crown that Jesus Christ rightfully will be given because He restored Humanity's title deed to the Earth, government and sovereignty over Lucifer.

In Summary

The hypothesis here is that perhaps the pattern of having the very rare Hybrid solar eclipse of 1466 leading up to the Tetrad of 1493-1494 could be a pattern that likewise will be heralding the establishment of the New World with an 'Order' in the world to be culminated during the Tetrad of 2014-2015. The direct correlation to the very rare Hybrid solar eclipse of November 3, 2013 to the one in 1466 does have the unique attribute of occurring also at 0° Lat 0° Long. It just so happens that this has not ever occurred since 1466. Perhaps these 2 last total solar eclipse before the Tetrad of 2014-2015 are thus 'Heralds' announcing the arrival of the globalist 'New World Order' and the advent of their AntiChrist or 'Columbus' that is to rule over it. Perhaps, it will prophetically have an impact similar to what happened to millions in that 'New Order' and to the Jews of the world in 1492. We shall see.
