Not just another brown llama! Here's a girl with an impressive pedigree for all the history buffs. Lots of extension and grow left in her with just enough fire in her to make a really great show girl. Measured a week prior to her first birthday, she is 42" at the withers and 65" at the poll. Really didn't intend to sell her, but Randy called looking for consignments...We will keep her mom and try for another just like her in the future.
